Information relating to the renewal of a selection patent shall be published by the expert organization after sending a relevant notification.

Clause 8. The order for publishing information on an integrated circuit topology

24. On the basis of registration in the State Register of Integrated Circuit Topologies, the expert organization shall weekly publish information on registered topologies in Kazakh and Russian in the bulletin’s section “Integrated Circuit Topology - Интегралдық микросхемалар топологиялары”.

When publishing information on the state registration of an integrated circuit topology, it is necessary to indicate in the official bulletin:

the name of the integrated circuit together with the registered topology;

the registration number of the integrated circuit topology (the number of the certificate of state registration of the integrated circuit topology);

the date of state registration of the integrated circuit topology;

the number of the application for state registration of the integrated circuit topology;

information on the right holder (right holders): the full name of the organization, the last and first name, patronymic (if any) of the individual with the indication of the code of the host country, residence address of the right holder (right holders);

information on the author (authors): the last and first name, patronymic (if any) of the individual with the indication of the code of residence (if the author (authors) did not mind being indicated as such);

the date of expiration of validity of the exclusive right;

the abstract.

Information relating to the registration of an integrated circuit topology shall be published by the expert organization after sending a relevant document of title.

Clause 9. On making changes to the State Register of Integrated Circuit Topologies

25. On the basis of changes made to the State Register of Integrated Circuit Topologies, the expert organization shall publish in the “Хабарлама - Notices” section such data as that:

1) on the registered transfer of the right to an integrated circuit topology:

the type of the agreement;

the number of the agreement;

the date of the agreement’s registration;

the name of the integrated circuit;

the registration number;
the application's number;
the owner;
the author (authors)
the owner's address;
the assignee;
the assignee's address.

2) on the registered granting of the right to use a trademark:

the number of the agreement;
the date of the agreement's registration;
the name of the integrated circuit;
the registration number;
the application's number;
the licensor (sublicensor);
the licensor's (sublicensor's) address;
the licensee (sublicensee);
the licensee's (sublicensee's) address.

3) on additional agreements to the registered agreements:

the number of the agreement;
the date of the agreement's registration;
the name of the integrated circuit;
the registration number;
the application's number;
the licensor (sublicensor);
the licensor's (sublicensor's) address;
the licensee (sublicensee);
the licensee's (sublicensee's) address.

4) on invalidation, in whole or in part, of the registration of an integrated circuit topology:

the name of the integrated circuit;
the registration number;
the application's number;
the filing date;
the owner;
the authors;
subject matter and reasons for termination.

5) on termination of validity of the registration of an integrated circuit topology:

the name of the integrated circuit;
the registration number;
the application's number;

the filing date;
the owner;
the authors;
subject matter and reasons for termination.

6) on extension of validity of the registration of an integrated circuit topology:

the registration number;
the owner's names;
the date until which the patent has been extended.

7) on changes in the name of the owner in connection with its reorganization (succession) and/or in its location address:

the registration number;
the new name of the owner of the registered trademark.

8) on changes in the last and first names, patronymic (if any) of the owner and/or his/her location address:

the registration number;
the new name of the owner of the registered trademark and/or location address;

9) on correction of obvious and technical errors, as well as other changes relating to the registration of a trademark:

the registration number;
description of the corrected data.

Changes relating to the registration, except for changes in the representative's mailing address, shall be sent for publication in the bulletin in the form of notices.

Information relating to making changes to the State Register of Integrated Circuit Topologies shall be published by the expert organization after sending a relevant notification.
