of the Republic of Kazakhstan  
dated April 15, 2019  
№KR MHC-35

## **Rules for attracting strategic partners by scientific organizations and organizations of education in the field of healthcare**

### **Chapter 1. General provisions**

1. Rules for attracting strategic partners by scientific organizations and organizations of education in the field of healthcare (hereinafter- the Rules) are developed in accordance with the Code of the Republic of Kazakhstan "On Public Health and Health Care System" dated September 18, 2009 and shall determine the procedure for attracting strategic partners by scientific organizations and organizations of education in the field of healthcare.

2. Strategic partnership in the field of medical education and science – a form of medium-term or long-term cooperation between scientific organizations and organizations of education in the field of healthcare and foreign organizations of higher and (or) post-graduate education, and medical organizations in the field of medical education and science (hereinafter – organizations-partners) for implementation and adaptation of international standards of education, science and clinical practice on the basis of a contract.

3. Main directions of strategic partnership:

- 1) increasing institutional and financial stability of organizations-partner;
- 2) improving the activity of organizations-partner on the issues of training and professional development of healthcare personnel;
- 3) developing scientific potential of organizations-partner;
- 4) improving the activity of organizations-partners on the issues of rendering medical services.

### **Chapter 2. Procedure for attracting strategic partners**

4) The procedure for attracting organizations-partners includes:

- 1) selection of potential partners according to the following criteria:

entry into recognized international rankings of universities and (or) scientific organizations;

experience in the fields of medical and pharmaceutical science and medical and pharmaceutical education;

availability of qualified personnel capable to ensure implementation of the tasks set for the partner.

2) conclusion of a contract between organizations-partners.

5. A responsible person shall be appointed and a working group for implementation of the strategic partnership shall be created by the order of the first head of scientific organization and organization of education in the field of healthcare, in case of his absence by the person performing his/her duties.

6. Organizations-partners shall carry out:

1) planning and implementation of measures for the development of strategic partnership in the field of training and professional development of medical personnel and scientists, joint training-methodological and research programs;

2) preparation, approval of texts and making proposals for concluding agreements with foreign partners on implementation of joint programs;

3) organizational support for implementation of the concluded agreements;

4) control over collection and execution of necessary documents for implementation of the strategic partnership;

5) preparation of generalized information and analysis of the results of the strategic partnership for the reporting period and their timely submission to the authorized body in the field of medical education and science.
