No. КР ДСМ-276/2020

## **Rules for maintaining a register of potentially hazardous chemical, biological substances prohibited for use in the Republic of Kazakhstan**

### **Chapter 1. General Provisions**

1. These Rules for maintaining a register of potentially hazardous chemical, biological substances prohibited for use in the Republic of Kazakhstan (hereinafter referred to as the Rules) have been developed in accordance with the Code of the Republic of Kazakhstan dated July 7, 2020 "On Public Health and Healthcare System" and shall determine the procedure for maintaining a register of potentially hazardous chemical, biological substances prohibited for use in the Republic of Kazakhstan.

2 In these Rules, the following basic concepts are used:

1) register of potentially hazardous chemical, biological substances prohibited for use in the Republic of Kazakhstan (hereinafter referred to as the register) – an electronic information resource of a state body in the field of sanitary and epidemiological welfare of the population, containing information about potentially hazardous chemical, biological substances prohibited for use in the Republic of Kazakhstan, production, use, import and export of which is not allowed;

2) subjects of scientific and (or) scientific and technical activities – individuals and legal entities that carry out scientific and (or) scientific and technical activities.

### **Chapter 2. The procedure for maintaining a register of potentially hazardous chemical, biological substances prohibited for use in the Republic of Kazakhstan**

3. Maintaining the register shall be understood to mean:

1) entry of information submitted by subordinate organizations of the state body in the field of sanitary and epidemiological welfare of the population, subjects of scientific and (or)

scientific and technical activities to the state body in the field of sanitary and epidemiological welfare of the population;

2) consideration of materials, decision-making by a state body in the field of sanitary and epidemiological welfare of the population, decisions on inclusion or refusal to be included in the register;

3) updating the register when changing information about potentially hazardous chemical, biological substances;

4) placement of the register on the Internet resource of the state body in the field of sanitary and epidemiological welfare of the population.

4. To ensure the maintenance of the register, subordinate organizations of the state body in the field of sanitary and epidemiological welfare of the population, subjects of scientific and (or) scientific and technical activities shall carry out the following work:

1) collection and analysis of information on potentially hazardous chemical, biological substances circulating in the territory of the Republic of Kazakhstan;

2) preparation of information and analytical materials on issues related to potentially hazardous chemical, biological substances, their toxicity and danger to human health and his environment;

3) analysis and identification of cause-effect relationships between the state of health and the human environment, the reasons and conditions for changing the sanitary and epidemiological welfare of the population based on the results of laboratory and instrumental studies of products and objects of sanitary and epidemiological control and supervision.

5. For the formation of the register, subordinate organizations of the state body in the field of sanitary and epidemiological welfare of the population, subjects of scientific and (or) scientific and technical activities shall submit the following materials in the state and (or) Russian languages:

1) information about the identified chemical and biological substances;

2) results of the sanitary and epidemiological expert examination of chemical and biological substances, drawn up in the form, approved according to the order of the Minister of National Economy of the Republic of Kazakhstan dated May 30, 2015 No. 415 "On approval of the forms of accounting and reporting documentation in the field of sanitary and epidemiological welfare of the population".

3) results of the scientific expert examination of chemical and biological substances, in the form according to Appendix 1 to these Rules.

6. Based on the results of consideration of the submitted materials, the state body in the field of sanitary and epidemiological welfare of the population shall make a decision on the inclusion of potentially hazardous chemical, biological substances in the register or on refusal to be included in the register within ten working days.

7. The grounds for refusal to be included in the register are inaccuracy and (or) incompleteness of the specified information in the submitted materials.

Item No.	Name of potentially hazardous chemical, biological substance	Date of inclusion	Manufacturer	Information about harmful properties, hazardous for health of the population	Date and number of sanitary and epidemiological expert examination and scientific expert examination
