3. Lost, damaged blanks of permission and (or) annex to permission shall be considered as invalid from the date of receipt of application by the licensing body on loss or damage.

4. Licensing body shall carry out issuance of duplicates of permission and (or) annex to permission with an inscription “duplicate” in the upper right corner and with specification of date of the primary issuance of the permission and (or) annex to the permission and date of their re-issuance within two business days from the date of filing an application.

Article 44. Correction of mistakes in issued permissions and (or) annexes to permissions

In case of detecting mistakes in issued permission and (or) annex to permission, the licensee or owner of permission of the second category shall have the right to file an application in a free form on their correction.

Licensing body shall introduce necessary amendments into the state electronic register of permissions and notifications and issue the permission and (or) annex to the permission with the relevant corrections within two business days from the date of filing the relevant application by an applicant.

Article 45. Suspension, restoration of validity, deprivation (revocation) of permission and (or) annex to permission

1. Suspension of validity of permission and (or) annex to permission shall be carried out in the manner and on the ground provided by the Laws of the Republic of Kazakhstan.

1-1. The ground for suspension of the permit and (or) the Annex to the permit may be a voluntary appeal to the permitting body of an individual or a legal entity, being a licensee or the owner of the permit of the second category.

2. Carrying out of separate types (subtypes) of activity or actions (operations) by licensees or owners of permissions of the second category for carrying out of which the permission and (or) annex to permission were issued, the validity of which is suspended shall not be allowed, unless otherwise provided by the Laws of the Republic of Kazakhstan.

3. Upon elimination of violations that are the ground for suspension of permission and (or) annex to permission, the licensee or owner of permission of the second category shall have the right to file an application to the licensing body on elimination of violations accompanied

by the copies of confirming documents upon expiry of the validity term of suspension of permission and (or) annex to it, unless otherwise provided by the Laws of the Republic of Kazakhstan.

Licensing body shall verify elimination of violations within ten business days from the date of filing an application by an applicant on elimination of violations in the manner provided by paragraph 2 of Article 51 of this Law.

In case of confirming the fact of elimination of violations by an applicant, the licensing body shall adopt decision on restoration of validity of permission and (or) annex to permission within the term mentioned in a part two of this paragraph.

By this, validity of permission and (or) annex to permission shall be restored from the date of adoption of decision mentioned in a part three of this paragraph.

4. In case of non-representation of an application on elimination of violations being the ground for suspension of permission and (or) annex to permission by a licensee or owner of permission of the second category upon expiry of the term of suspension, the licensing bodies shall initiate a procedure for deprivation (revocation) of permission and (or) annex to permission within ten business days from the date of expiration of the term of suspension.

In the process of considering the question on deprivation (revocation) of permission and (or) annex to it, the licensee or owner of permission of the second category shall have the right to prove the fact of elimination of the violation. In this case, the licensing body shall be governed by parts two and three of paragraph 3 of this Article.

5. Deprivation (revocation) of permission shall be carried out in the manner and (or) on the grounds provided by the Laws of the Republic of Kazakhstan.

6. From the moment of suspension of the permit and (or) the Annex to the permit in connection with voluntary application of the licensee, the owner of the permit of the second category, all obligations on the payment of annual license fee or payment provided for by the Laws of the Republic of Kazakhstan shall cease.

7. Renewal of the permit validity and (or) the Annex to the permit suspended on the ground provided for in paragraph 1-1 of this Article shall be carried out upon application to the permitting body of the licensee or the owner of the permit of the second category.

The permitting body on the ground of this application within three working days shall take a decision on the renewal of the permit and (or) the Annex to the permit.

8. From the moment of taking the decision on renewal of the permit and (or) the Annex to the permit, obligations on payment of annual license fee or payment provided for by the Laws of the Republic of Kazakhstan shall be renewed for the licensee, the owner of the permit of the second category.

Chapter 8. NOTIFICATION ORDER

Article 46. Notification order

1. Limiting list of notifications shall be provided in Annex 3 to this Law.
2. Notices shall be sent by applicants to the state body that receives notices through the state information system of permits and notices, as well as at other informatization facilities in accordance with the legislation of the Republic of Kazakhstan.
3. Applicants shall declare their conformance to requirements submitted by the regulatory legal acts for carrying out of activity or actions in respect of which the notification order is introduced by representing the forms of details in cases provided by the regulatory legal acts.
4. Applicant shall have the right to begin or be obliged to terminate carrying out of activity or particular actions immediately after direction of the relevant notification, unless otherwise established by the Laws of the Republic of Kazakhstan.

Considering the specific character of separate types of activity or actions in separate cases , the Laws of the Republic of Kazakhstan may establish the terms for directing the notifications.

5. In cases established by the Laws of the Republic of Kazakhstan, the notification shall be accompanied by necessary documents, by this the requisitioning of documents and other information from applicants that in accordance with the legislation of the Republic of Kazakhstan may be received from the state electronic informational resources.

Applicant shall bear responsibility for credibility of details contained in notification and (or) documents accompanied to the notification.

6. Upon introduction of notification order in respect of particular type of activity or action instead of permission order, the individuals and legal entities having valid permission for this type of activity or action on a date of introduction of notification order, shall be considered as directed the notification and automatically shall be included into the state electronic register of permissions and notifications.

7. In case of change of legal address of an individual, location of a legal entity, address of carrying out the activity or actions specified in notification, as well as registration data the information on which is compulsory for filling in the notification, the applicant shall be obliged to direct the notification on mentioned changes in the manner established by this Law within ten business days from the date of change.

Footnote. Article 46 as amended by the Law of the Republic of Kazakhstan dated 29.09.2014 № 239-V (the order of enforcement see Article 3); dated 14.07.2022 № 141-VII (shall enter into force upon expiry of ten calendar days after the day of its first official publication).

Article 47. Confirmation of direction of notification

Upon references of applicants, the state bodies carrying out acceptance of a notification shall be obliged to issue abbreviates to the applicants from the state electronic register of

permissions and notifications on directed notifications by the applicants within three business days from the date of reference.

State bodies and third parties shall receive confirmation of direction of a notification by the applicant from the state bodies carrying out acceptance of notifications, or from the state electronic register of permissions and notifications.

Chapter 9. INFORMATION AND COMMUNICATIONS TECHNOLOGIES UPON CARRYING OUT OF LICENSING, LICENSING PROCEDURES AND NOTIFICATIONS

Footnote. Chapter 9 as amended by the Law of the Republic of Kazakhstan dated 24.11.2015 № 419-V (shall be enforced from 01.01.2016).

Article 48. Carrying out of licensing, licensing procedures and notifications in electronic form

1. Licensing and direction of notifications shall be carried out in electronic form with the use of the state informational system of permissions and notifications and the state electronic register of permissions and notifications.

Licensing procedures shall be carried out in electronic form with the use of state informational system of permissions and notifications and the state electronic register of permissions and notifications considering the provisions of paragraph 3 of Article 52 of this Law.

Permissions issued in the form of electronic document shall be equal to permissions in a hard copy.

Licensing bodies shall be obliged to include information on carried out licensing procedures in a hard copy into the state electronic register of permissions and notifications at the same time with carrying out of the licensing procedure.

The licensing body shall bear responsibility for non-performance of requirements established by a part four of this paragraph.

Force of this paragraph shall not apply to permissions that shall not be subject to automation.

2. For receipt of permission through the State Corporation, the applicant shall have the right to refer to the State Corporation regardless of its location, with the exception of permissions in a financial scope and for activity linked with a concentration of financial resources.

3. In case of reference of an applicant for passing the licensing procedure through the State Corporation, the employee of the State Corporation shall certify electronic application or another analogous document by own electronic digital signature issued for use in official purposes. Such certification shall be carried out on the basis of written agreement of the applicant.

4. In case of reference of an applicant for receipt of permission and (or) annex to permission in a hard copy, the permission and (or) annex to the permission shall be drawn up

in electronic form, printed and notarized under seal of the licensing body and signature of the head of the licensing body.

5. Permission and (or) annex to permission shall be issued in a hard copy in case of absence of possibility to issue the permission and (or) annex to the permission in electronic form.

6. If an application is submitted in electronic form, registration of the application by the licensor and the body authorized to issue a permit of the second category shall be carried out within one working day.

7. It shall be allowed to check the applicant for compliance with qualification or permitting requirements and issue permission in the automatic mode of checking the applicant and issuing permission in the state information system of permits and notices.

In this case, the result of the relevant public service shall be certified by means of the electronic digital signature of the owner of the state information system of permits and notices . At the same time, the permitting authority shall be responsible for the result of the state service.

The list of permits for which the applicant shall be checked for compliance with qualification or permitting requirements and the issuance of a permit or reasoned refusal is carried out in the automatic mode of checking the applicant and issuing a permit in the state information system of permits and notices shall be determined by the authorized body in the field of informatization on the basis of the approved regulatory legal act of the permitting authority.

Footnote. Article 48 as amended by the Law of the Republic of Kazakhstan dated 17.11.2015 № 408-V (shall be enforced from 01.03.2016); dated 14.07.2022 № 141-VII (shall enter into force upon expiry of ten calendar days after the day of its first official publication).

Article 49. State electronic register of permissions and notifications

1. Licensing bodies shall maintain the state electronic register of permissions and notifications on a permanent basis.

State electronic register of permissions and notifications on notifications shall be maintained by the state bodies carrying out acceptance of notifications in cases provided by the legislation of the Republic of Kazakhstan.

2. State bodies shall be obliged to receive information on permissions and notifications from the state electronic register of permissions and notifications for exercising own powers without additional requisitioning of confirmation of specified information from individuals and legal entities.

3. State electronic register of permissions and notifications is the ground for formation of risks assessment system and schedule of conducting inspections.

4. In case of suspension of activities or certain types of activities or actions (operations) of an individual or legal entity, a branch of a foreign legal entity whose profile is financial

services provision, corresponding information shall be entered in the state electronic register of permits and notifications.

5. Exclusion of a notification from the state electronic register of permissions and notifications shall be carried out upon application of an applicant, under court decision on prohibition of activity or separate types of activity or actions of an individual or legal entity, as well as in other cases provided by the Laws of the Republic of Kazakhstan.

6. Licensing bodies and state bodies carrying out acceptance of notifications in the period of temporary or permanent absence of a possibility to maintain the state electronic register of permissions and notifications shall be obliged to ensure fixing and preserving of all necessary historical data and perform filling of the state electronic register of permissions and notifications by historical data after occurrence of such possibility.

Footnote. Article 49 as amended by the Law of the Republic of Kazakhstan dated 29.03.2016 № 479-V (shall be enforced upon expiry of twenty one calendar days after its first official publication); dated 02.01.2021 № 399-VI (effective from 16.12.2020).

Chapter 10. RESPONSIBILITY AND CONTROL

Article 50. Responsibility for breach of the legislation of the Republic of Kazakhstan on permissions and notifications

Breach of the legislation of the Republic of Kazakhstan on permissions and notifications shall entail responsibility established by the Laws of the Republic of Kazakhstan.

Article 51. Control by notifications and permitting control

1. Permit control, carried out for compliance with qualification or permitting requirements for issued permits, requirements for sent notifications, is carried out in the form of an audit in accordance with the Entrepreneurial Code of the Republic of Kazakhstan and the Law of the Republic of Kazakhstan “On state regulation, control and supervision of the financial market and financial organizations”.

2. Permit control is carried out in the manner established by paragraphs 2-1 – 2-4 of this article.

In the field of activities in the financial sector and activities related to the concentration of financial resources, the permit control is carried out in the manner established by the Law of the Republic of Kazakhstan “On state regulation, control and supervision of the financial market and financial organizations”, as well as regulatory legal acts of the National Bank of the Republic of Kazakhstan.

2-1. If the regulatory legal acts of the Republic of Kazakhstan on the approval of qualification and permitting requirements contain the need to visit the applicant when carrying out permit control, based on the results of the visit, a conclusion is drawn up on the applicant’s compliance or non-compliance with the qualification or permitting requirements.

The conclusion on the applicant’s compliance or non-compliance with the qualification or permitting requirements shall indicate:

- 1) date, time and place of drawing up the conclusion;
- 2) name of the licensing authority;
- 3) last name, first name, patronymic (if it is indicated in the identity document) and position of the person (persons) who carried out the permit control;
- 4) name or surname, first name, patronymic (if indicated in the identity document) of the applicant, position of the representative of the individual or legal entity present during the permit control;
- 5) information about specialists, consultants and experts of government bodies and subordinate organizations involved in conducting the permit control;
- 6) information on the results of the permit control, including identified non-compliances with qualification or permitting requirements;
- 7) information about familiarization or refusal to familiarize with the conclusion of the applicant, the applicant's representative, as well as persons present during the permit control, their signatures or refusal to sign;
- 8) signature of the official (officials) who carried out the permit control.

The acts on the selection of samples (samples) of products, inspection of environmental objects, protocols (conclusions) of studies (tests) and examinations and other documents or copies thereof related to the results of the permit control, are attached to the conclusion on the applicant's compliance or non-compliance with qualification or permitting requirements, if available.

If there are comments and (or) objections based on the results of the permit control, the applicant or his representatives have the right to present comments and (or) objections in writing.

Comments and (or) objections are attached to the conclusion about the applicant's compliance or non-compliance with the qualification or permitting requirements, about which a corresponding note is made in it.

The licensing authority must consider the comments and (or) objections of the subject of control to the conclusion about the applicant's compliance or non-compliance with the qualification or permitting requirements and give a reasoned response within fifteen working days.

In case of refusal to accept a conclusion on the applicant's compliance or non-compliance with the qualification or permitting requirements, an act is drawn up, which is signed by the officials exercising permitting control and the applicant's manager or his authorized representative.

The applicant or his authorized representative has the right to refuse to sign the act by giving a written explanation of the reason for the refusal.

The conclusion on the applicant's compliance or non-compliance with the qualification or permitting requirements is drawn up in two copies.

The first copy of the conclusion on the applicant's compliance or non-compliance with the qualification or permitting requirements remains with the licensing authority, the second copy on paper against signature or in electronic form is submitted to the applicant (the head of the legal entity or his authorized person, an individual).

Seizure and withdrawal of original accounting and other documents during the permit control is prohibited.

If the applicant meets the qualification or permitting requirements, a conclusion is drawn up on the applicant's compliance with the qualification or permitting requirements.

2-2. When conducting the permit control, officials of the licensing authority are not entitled to:

1) verify compliance with requirements not established in the regulatory legal acts of the Republic of Kazakhstan on approval of qualification and permitting requirements;

2) require the provision of documents, information, samples (samples) of products, samples of inspection of environmental objects and objects of the industrial environment, if they are not the objects of permit control or do not relate to its subject;

3) take product samples, inspection samples of environmental objects and industrial environment objects for carrying out their research, testing, measurements without drawing up protocols on the selection of these samples, samples in the prescribed form and (or) in quantities exceeding the norms established by national standards and the rules for selection of samples, samples and methods of their research, testing, measurements, technical regulations or other regulatory technical documents, rules and methods of research, testing, measurements valid until the day of their entry into force;

4) disclose and (or) disseminate information obtained as a result of the permit control and constituting a commercial, tax or other secret protected by law, except for cases provided for by the laws of the Republic of Kazakhstan;

5) demand and make requests that are not related to the subject of the permit control.

2-3. Officials of licensing authorities, when conducting the permit control, have the right to:

1) unhindered access to the territory and premises of the applicant;

2) receive documents (information) on paper and electronic media or copies thereof for inclusion in the conclusion on the applicant's compliance or non-compliance with qualification or permitting requirements, as well as access to automated databases (information systems) in accordance with the subject of the permit control of the applicant in compliance with the requirements provided for by the legislation of the Republic of Kazakhstan on state secrets and other secrets protected by the law of the Republic of Kazakhstan;

3) carry out audio, photo and video filming;

4) use records of technical means of control, surveillance and recording devices, photographic and video equipment related to the subject of the permit control;

5) attract specialists, consultants and experts from government bodies and subordinate organizations.

Officials of licensing authorities, when conducting the permit control, are obliged to:

1) comply with the legislation of the Republic of Kazakhstan, respect the rights and legitimate interests of applicants;

2) not interfere with the established work schedule of applicants during the period of the permit control;

3) not prevent the applicant from being present during the permit control, and provide explanations on issues related to the subject of the permit control;

4) provide the applicant with the necessary information related to the subject of the permit control;

5) ensure the safety of documents and information obtained as a result of the permit control.

2-4. When carrying out the permit control, applicants or their authorized representatives have the right:

1) not to provide information if it does not relate to the subject of the permit control;

2) appeal the conclusion on the applicant's compliance or non-compliance with qualification or permitting requirements in accordance with the legislation of the Republic of Kazakhstan;

3) record the process of carrying out the permit control, as well as individual actions of an official of the licensing authority, carried out by him within the framework of the permit control, using audio and video equipment, without creating obstacles to the activities of the official;

4) involve third parties in participation in the permit control in order to represent their interests and rights.

When carrying out the permit control, applicants or their authorized representatives are obliged to:

1) ensure unimpeded access for officials of licensing authorities to the territory and premises of the applicant;

2) in compliance with the requirements for the protection of commercial, tax or other secrets protected by law, submit to officials of licensing authorities the documents (information) on paper and electronic media or copies thereof for inclusion in the conclusion on the applicant's compliance or non-compliance with qualification or permitting requirements, as well as access to automated databases (information systems) in accordance with the tasks and subject of the permit control;

3) make a note on receipt on the second copy of the conclusion on the applicant's compliance or non-compliance with the qualification or permitting requirements upon receipt;

4) ensure the safety of persons who arrived to carry out the permit control at the facility from harmful and dangerous production factors in accordance with the standards established for this facility;

5) in case of receiving a notification about the upcoming permit control, be at the location of the object of control and supervision at the appointed time and date.

3. Is excluded by the Law of the Republic of Kazakhstan dated 06.04.2024 № 71-VIII (shall be enforced upon expiration of sixty calendar days after the day of its first official publication).

4. After receiving the notification, the state body independently verifies the applicant's compliance with the requirements established by the laws of the Republic of Kazakhstan, decrees of the President of the Republic of Kazakhstan, resolutions of the Government of the Republic of Kazakhstan or regulatory legal acts of the National Bank of the Republic of Kazakhstan, the authorized body for regulation, control and supervision of the financial market and financial organizations for carrying out activities in accordance with the Entrepreneurial Code of the Republic of Kazakhstan and the Law of the Republic of Kazakhstan "On state regulation, control and supervision of the financial market and financial organizations".

Footnote. Article 51 is in the wording of the Law of the Republic of Kazakhstan dated 24.05.2018 № 156-VI (shall be enforced upon expiry of ten calendar days after its first official publication); as amended by Law № 262-VI of the Republic of Kazakhstan as of 03.07.2019 (shall be enforced from 01.01.2020); dated 29.06.2020 № 352-VI (shall be enforced ten calendar days after the date of its first official publication); dated 30.12.2021 № 95-VII (shall be enforced from 01.01.2023); dated 06.04.2024 № 71-VIII (shall be enforced upon expiration of sixty calendar days after the day of its first official publication).

Licensing of activities in the field of broadcasting			
1.	License for the activity on distribution of TV and radio channels		Inalienable; class 1
The licensing of activities in the field of protection and use of objects of historical and cultural heritage			
2.	A license for activities on performing scientific restoration works on monuments of history and culture and (or) archaeological works	1. Performance of scientific restoration works on historical and cultural monuments. 2. Performance of archaeological works.	Inalienable; class 1
		1. Provision of primary education.	Inalienable; class 1
		2. Provision of basic secondary education.	Inalienable; class 1
		3. Provision of general secondary education.	Inalienable; class 1
		4. Providing technical and vocational education in specialties included in the register of educational programs for military, special educational institutions by groups of specialties.	Inalienable; class 1
		5. Providing post-secondary education in specialties included in the register of educational programs for the	

3.	License to engage in educational activities	military, special educational institutions by groups of specialties.	Inalienable; class 1
		6. Provision of higher education in areas of training and forms of training.	Inalienable; validity period 5 years (except for licenses and (or) Annexes to the license issued to military, special educational institutions, as well as those issued before the introduction of paragraph 3-1 of Article 57 of the Law of the Republic of Kazakhstan "On education" to organizations of higher and (or) postgraduate education); class 1
		7. Provision of postgraduate education in areas of training and forms of training.	Inalienable; validity period 5 years (except for licenses and (or) Annexes to the license issued by the Academy of Justice, military, special educational institutions, as well as those issued before the introduction of paragraph 3-1 of Article 57 of the Law of

			the Republic of Kazakhstan "On education" to organizations of higher and (or) postgraduate education); class 1
		8. Provision of spiritual education.	Inalienable; class 1
Licensing of activities in the sphere of architecture, urban planning and construction			
4.	License for survey activities	<p>1. Engineering and geodetic works, including:</p> <p>1) construction and laying of geodetic centers;</p> <p>2) creation of planned high-altitude survey networks;</p> <p>3) topographical works for design and construction (survey at scales from 1:10000 to 1:200 , as well as surveys of underground utilities and structures, tracing and surveying of ground linear structures and their elements);</p> <p>4) geodetic works related to the transfer in nature with reference to engineering-geological workings, geophysical and other survey points.</p> <p>2. Engineering-geological and engineering-hydrogeological works, including:</p> <p>1) geophysical studies, reconnaissance and survey;</p> <p>2) field studies of soils, hydrogeological studies</p>	Inalienable; class 1
		<p>1. Urban planning (with the right to design for urban rehabilitation of areas of historical development, with the exception of scientific and restoration work on monuments of history and culture) and planning, including the development of:</p> <p>1) planning documentation (complex schemes of urban planning of territories - projects</p>	

of regional planning, general plans of settlements, projects of detailed planning and projects of development of areas, microdistricts, quarters, separate sites);

2) schemes of development of transport infrastructure of settlements (the street and road network and objects of intracity and external transport located within the borders of settlements) and inter-settlement territories (objects and communications of external transport located out of the street and road network of settlements);

3) schemes of heat supply of settlements with placement of objects on production and transportation of heat energy in the system of building, and also heat supply of production complexes located in inter-settlement territories;

4) schemes of water supply of settlements with placement of sources of drinking and (or) technical water and tracing of water pipelines, and also schemes of water supply of production complexes located in inter-settlement territories;

5) sewerage schemes of settlements and industrial complexes, including a centralized system of collection and drain of household, industrial and storm water, placement of main treatment facilities, evaporators and facilities for the regeneration of wastewater;

6) gas supply schemes of settlements and industrial complexes located in inter-settlement territories;

7) schemes of power supply of settlements with placement of objects on production and transportation of electric energy in the system of building, and also power

5.	License for project activities	<p>supply of production complexes located in inter-settlement territories;</p> <p>8) schemes of telecommunications and communication for settlements with placement of objects of infrastructure and sources of information.</p> <p>2. Architectural design for buildings and structures (with the right to design for architectural-restoration works, except for scientific and restoration works on monuments of history and culture), including general plans of objects, engineering preparation of the territory, improvement and organization of relief.</p> <p>3. Construction design (with the right to design for major repairs and (or) reconstruction of buildings and structures, as well as strengthening of structures for each of the works mentioned below) and design, including:</p> <p>1) bases and foundations;</p> <p>2) concrete and reinforced concrete, stone and reinforced stone structures;</p> <p>3) metal (steel, aluminum and alloy) structures.</p> <p>4. Design of engineering systems and networks, including:</p> <p>1) internal heating systems (including electric), ventilation, air conditioning, cold supply, gasification (low pressure gas supply) as well as their external networks with auxiliary facilities;</p> <p>2) internal water supply systems (hot and cold water) and sewerage systems, as well as their external networks with auxiliary facilities;</p> <p>3) internal systems of low-voltage devices (telephone,</p>	Inalienable; class 1
----	--------------------------------	---	-------------------------

fire alarm systems), as well as their external networks;

4) systems of internal and external electric lighting, power supply up to 0.4 kV and 10 kV;

5) power supply up to 35 kV, up to 110 kV and above;

6) main oil pipelines, oil product pipelines, gas pipelines (gas supply of medium and high pressure).

5. Technological design (development of technological part of construction projects) of buildings and structures for housing and civil purposes, including:

1) for pre-school education, general and special education, boarding schools, personnel training institutions, research, cultural, educational and entertainment institutions, trade enterprises (including pharmacies), health care (treatment and prevention of diseases, rehabilitation and sanatorium treatment), catering and consumer services, sports-recreational and sports activities, leisure and tourism, as well as other multifunctional buildings and complexes with premises for various public purposes;

2) for transport infrastructure (intended for direct public service) and utilities (except for buildings and facilities for servicing vehicles, as well as other industrial-economic purpose).

6. Technological design (development of technological part of construction projects) of facilities for industrial purposes, including:

1) for energy industry;

2) for processing industry, including light and food industry;

3) for heavy engineering;

	<p>4) for medical, microbiological and pharmaceutical industry;</p> <p>5) barrages, dams, other hydraulic structures;</p> <p>6) tower and mast type structures;</p> <p>7) for lifting-transport devices and elevators.</p> <p>7. Technological design (development of technological part of construction projects) of objects of transport, communication and communications infrastructure, including maintenance of:</p> <p>1) intra-urban and external transport, including road, electric, rail and other rail, air, water transport;</p> <p>2) local communication lines, radio, telecommunications;</p> <p>3) national and international communication lines (including satellite) and other types of telecommunications.</p> <p>8. Technological design (development of technological part of transport construction projects), including:</p> <p>1) the ways of rail transport;</p> <p>2) roads of all categories;</p> <p>3) street and road network of urban electric transport;</p> <p>4) bridges and bridge crossings, including overpasses, and multilevel transport junctions.</p> <p>9. Technological design (development of technological part of projects) of construction of agricultural facilities, with the exception of enterprises of processing industry.</p>	
	<p>1. Special works in soils, including:</p> <p>1) installation of foundations;</p> <p>2) drilling operations in the ground;</p> <p>3) underwater-technical works and works on the sea shelf.</p> <p>2. Construction of bearing and (or) enclosing structures of buildings and structures (including bridges, transport</p>	

overpasses, tunnels and crossovers, other artificial structures), including major repairs and reconstruction of facilities, including:

- 1) installation of metal structures;
- 2) installation of building structures of tower and mast type, chimney-shafts;
- 3) installation of bearing structures of bridges and bridge crossings;
- 4) hydraulic and antimud slide protection facilities, barrages, dams;
- 5) chimney-shafts, silo construction, cooling towers, pit head copra;
- 6) mining and tunnel works, the installation of anti-filtration screens;
- 7) installation of building structures of lifting equipment (elevators, escalators, headgears and lifts, cable ways and other constructions of lifting equipment);
- 8) installation of monolithic and installation of precast concrete and concrete structures, masonry of block elements of walls and partition walls and filling the gaps;
- 9) roofing works.

3. Special construction and installation works on laying of linear structures, including major repairs and reconstruction, including:

- 1) steel tanks (containers) working under pressure or intended for storage of explosive or other dangerous (harmful) liquid or gaseous substances;
- 2) field and trunk networks of oil pipelines, gas pipelines, as well as oil product trunk networks;
- 3) main power lines with voltage up to 35 kV and up to 110 kV and above;

6.	License for construction and installation works	<p>4) national and international lines of communication and telecommunications.</p> <p>4. Installation of engineering networks and systems, including major repairs and reconstruction, including:</p> <p>1) power supply networks of railways, networks of power supply and electric lighting of air transport enterprises;</p> <p>2) gas supply networks of high and medium pressure, household and industrial gas supply of low pressure, internal gas supply systems;</p> <p>3) networks of hot and cold water supply, heat supply, centralized sewage of household, industrial and storm water systems, construction of internal systems of water plumbing, heating and sanitation;</p> <p>4) electrical networks and construction of external lighting, internal systems of lighting and electrical heating.</p> <p>5. Construction of roads and railways, including major repairs and reconstruction, including:</p> <p>1) the base and the top structure of railway tracks;</p> <p>2) the base and cover, protective structures and arrangement of roads of I and II technical categories, as well as high-speed intercity highways and controlled traffic , the carriageway of main streets of city-wide significance of continuous and regulated traffic;</p> <p>3) the base and cover, protective structures and arrangement of roads of III, IV and V technical categories, as well as the carriageway of settlements streets, that are not main roads;</p>	Inalienable; class 1
----	---	---	-------------------------

		<p>4) the base and cover of the runways of airfields and helipads.</p> <p>6. Installation of process equipment, commissioning work related to:</p> <p>1) hydraulic engineering and reclamation facilities;</p> <p>2) production of building materials, products and structures;</p> <p>3) the objects of theatrical entertainment, educational, sports purposes;</p> <p>4) communications, emergency protection, control and alarm system, blocking in transport, electricity and water supply facilities and other life-support facilities, as well as devices for metering and control of industrial purpose.</p>	
7.	Is excluded by the Law of the Republic of Kazakhstan dated 07.04.2016 № 487-V (shall be enforced upon expiry of six months after its first official publication)		
Licensing of activities in the sphere of hydrocarbons			
8.	License for works and services in the field of hydrocarbons	<p>1. Field researches during exploration and production of hydrocarbons.</p> <p>2. Seismic surveys for exploration and production of hydrocarbons.</p> <p>3. Geophysical works during exploration and production of hydrocarbons.</p> <p>4. Perforation and blasting operations in wells during exploration and production of hydrocarbons.</p> <p>5. Drilling wells on land, on the sea, and in inland waters during the exploration and production of hydrocarbons.</p> <p>6. Underground repairs, testing, development, sampling, conservation, abandonment of wells during exploration and production of hydrocarbons.</p> <p>7. Cementation of wells during exploration and production of hydrocarbons.</p> <p>8. Increasing oil recovery from oil reservoirs and increasing</p>	

		<p>well productivity during exploration and production of hydrocarbons.</p> <p>9. Works to prevent and eliminate spills at hydrocarbon fields on the sea.</p> <p>10. Operation of petrochemical plants.</p> <p>11. Drawing up basic design documents for hydrocarbon fields and analysis of the development of hydrocarbon fields.</p> <p>12. Drawing up technical design documents for hydrocarbon fields.</p> <p>13. Operation of main pipelines</p> <p>.</p>	Inalienable; class 1
Licensing of activities in the sphere of industry			
9.	License for operation of mining and chemical industries	<p>1. Extraction of solid minerals (except for common minerals).</p> <p>2. Opening and development of deposits of solid minerals by open and underground methods</p> <p>.</p> <p>3. Conducting technological works at the fields.</p> <p>4. Production of blasting operations for extraction of minerals.</p> <p>5. Liquidation works on closure of pits and mines.</p> <p>6. Underground and capital repair of wells, dismantling of equipment and units, installation of the well lift.</p> <p>7. Testing after repair of wells.</p> <p>8. Washing, cementation, testing and development of wells.</p> <p>9. Operation of chemical production.</p>	Inalienable; the effect of part one of paragraph 3 of Article 25 and paragraphs 1, 2 of Article 26 of this Law at the issuance of a license shall not apply; class 1
10.	Is excluded by the Law of the Republic of Kazakhstan dated 29.03.2016 № 479-V (shall be enforced upon expiry of twenty-one calendar days after its first official publication).		
11.	License for the activities on purchase of electricity for power supply purposes		Inalienable; class 1
Licensing of activities in the sphere of information and communication			
		<p>1. Trunk telephony.</p> <p>2. International telephony.</p>	Inalienable;

12.	License for provision of services in the field of communication	3. Mobile satellite communication. 4. Cellular communication	class 1
Licensing of activities in the field of digital assets			
12-1.	License to carry out digital mining activities	1. I subtype – the implementation of digital mining activities by a digital miner who has a digital mining data processing center on the basis of the right of ownership or other legal grounds. 2. II subtype – the implementation of digital mining activities by a digital miner who does not have a digital mining data processing center on the basis of the right of ownership or other legal grounds and carries out digital mining using a hardware and software complex for digital mining owned by him on the basis of the right of ownership, located in a digital mining data processing center.	Inalienable; validity period of 3 years; the effect of part one of paragraph 3 of article 25 and paragraph 1, 2 of article 26 of this Law is not applied when issuing a license; class 1
Licensing of activities in the sphere of trafficking in narcotic drugs, psychotropic substances, precursors			
13.	License for the activities in the sphere of trafficking in narcotic drugs, psychotropic substances and precursors	1. Development, production, processing, transportation, shipment, purchase, storage, distribution, sale, use, destruction of drugs.	Inalienable; the validity term is 5 years; the effect of part one of paragraph 3 of Article 25 and paragraphs 1, 2 of Article 26 of this Law at the issuance of a license shall not apply; class 1
		2. Production of psychotropic substances and precursors.	
		3. Development, processing, transportation, shipment, purchase, storage, distribution, sale, use, destruction of psychotropic substances and precursors.	Inalienable; the validity term is 5 years; class 1
		4. Cultivation, collection, harvesting of plants and herbs containing narcotic drugs.	Inalienable; the validity term is 5 years; the effect of part one of paragraph 3 of Article 25 and paragraphs 1, 2 of Article 26 of this Law at the issuance of a license shall not apply; class 1

		5. Cultivation, collection, harvesting of plants and herbs containing psychotropic substances.	Inalienable; the validity term is 5 years; class 1
		6. For the activities related to trafficking in narcotic drugs, psychotropic substances and precursors in the field of healthcare.	Inalienable; the validity term is 5 years; class 1
14.	Is excluded by the Law of the Republic of Kazakhstan dated 29.03.2016 № 479-V (shall be enforced upon expiry of twenty-one calendar days after its first official publication).		
Licensing of activities in the sphere of healthcare			
		1. Emergency medical care and (or) sanitary aviation. 2. Outpatient care for adults and (or) children in the following specialties: primary health care: pre-medical, qualified; consultative and diagnostic assistance: diagnostics: radioisotope, radiological, ultrasonic, functional, endoscopic; laboratory diagnostics: bacteriological, biochemical, immunological studies, general clinical, serological, cytological studies; obstetrics and gynecology; pediatrics; neonatology; infectious diseases; therapy; neurology; cardiology; rheumatology; gastroenterology; nephrology; pulmonology; endocrinology; allergology and immunology; hematology; professional pathology; general medical practice; general surgery: thoracic, abdominal, coloproctology; transplantology; cardiac surgery;	

15.	License for medical activity	<p> angiosurgery; plastic surgery; maxillofacial; neurosurgery; otorhinolaryngology; ophthalmology; transfusiology; urology; traumatology-orthopedics; anesthesiology and resuscitation; dermatovenereology (dermatocosmetology); psychiatry: narcology, psychotherapy, sexopathology, medical psychology; phthisiology; oncology; dentistry; traditional medicine: homeopathy, hirudotherapy, manual therapy, reflexology, herbal medicine and treatment with natural products; medical rehabilitation, rehabilitation treatment: physiotherapy, massage, physiotherapy exercises, balneology; medical genetics; radiation therapy; sports medicine. 3. Inpatient care and (or) inpatient replacing care for adults and (or) children in the following specialties: diagnostics: radioisotope, x-ray, ultrasound, functional, endoscopic, pathological anatomy; laboratory diagnostics: bacteriological, biochemical, immunological studies, laboratory diagnosis of human immunodeficiency virus (HIV diagnosis), general clinical, serological, cytological studies; obstetrics and gynecology; pediatrics; neonatology; infectious diseases; </p>	Inalienable; class 1

neuropathology;
cardiology;
rheumatology;
gastroenterology;
nephrology;
pulmonology;
endocrinology;
allergology and immunology;
hematology;
professional pathology;
general medical practice;
general surgery:
thoracic, abdominal,
coloproctology;
transplantology;
cardiac surgery;
angiosurgery;
plastic surgery;
maxillofacial;
neurosurgery;
otorhinolaryngology;
ophthalmology;
transfusiology;
urology;
traumatology and orthopedics;
anesthesiology and intensive
care;
dermatovenereology (
dermatocosmetology);
psychiatry:
narcology, psychotherapy,
sexual pathology, medical
psychology;
phthisiology;
oncology;
dentistry;
traditional medicine:
homeopathy, hirudotherapy,
manual therapy,
reflexotherapy, phytotherapy

medical rehabilitation,
rehabilitation treatment:
physiotherapy, massage,
physical therapy, balneology;
sports medicine;
toxicology;
perfusiology;
radiation therapy.

		<p>4. Preparation, preservation, processing, storage and sale of blood and its components.</p> <p>5. Is excluded by the Law of the Republic of Kazakhstan dated 29.03.2016 № 479-IV (shall be enforced from 01.07.2016).</p> <p>6. Examination of temporary disability and professional suitability.</p>	
16.	License for pharmaceutical activity	<p>1. Production of medicines.</p> <p>2. Production of medical devices.</p> <p>3. Manufacturing of medical products.</p> <p>4. Manufacturing of medical devices.</p> <p>5. Wholesale sale of medicines.</p> <p>6. Retail sale of medicines.</p>	Inalienable; class 1
Licensing of activities in the sphere of atomic energy use			
17.	License for the performance of works, connected with stages of life cycle of objects of atomic energy use	<p>1. Construction of nuclear facilities, radioactive waste storage facilities.</p> <p>2. Operation of nuclear facilities, radioactive waste storage facilities.</p> <p>3. Decommissioning of nuclear facilities, radioactive waste storage facilities.</p> <p>4. Management of works and projects in the placement, construction, decommissioning of nuclear facilities.</p>	Inalienable; the validity term of the license is 5 years; the effect of part one of paragraph 3 of Article 25 and paragraphs 1, 2 of Article 26 of this Law at the issuance of a license shall not apply; class 1
18.	License for radioactive waste management activities	<p>1. Collection and sorting of radioactive waste.</p> <p>2. Decontamination (purification from radioactive contamination) of premises, equipment and materials.</p> <p>3. Processing of radioactive waste.</p> <p>4. Storage and disposal of radioactive waste.</p> <p>5. Radiation rehabilitation, reclamation of territories and facilities.</p>	Inalienable; the validity term of the license is 5 years; the effect of part one of paragraph 3 of Article 25 and paragraphs 1, 2 of Article 26 of this Law at the issuance of a license shall not apply; class 1
19.	Excluded by the Law of the Republic of Kazakhstan dated 25.02.2021 № 12-VII (effective from 01.01.2021).		

20.	License for the activity in the territories of former nuclear test sites and other territories contaminated as a result of nuclear tests		Inalienable; class 1
21.	License for providing services in atomic power use	<p>1. Maintenance, installation, dismantling, charging, recharging, repair of devices and installations, including medical ones, containing radioisotope sources of ionizing radiation or generating ionizing radiation.</p> <p>2. Quality control of the ionizing radiation sources operation, also of devices, equipment, installations containing such sources or generating ionizing radiation.</p> <p>3. Radiation monitoring of territories, premises, workplaces, goods, materials, scrap metal, vehicles.</p> <p>4. Determination of the content of radionuclides in products, materials, environmental objects, measurement of the concentration of radon and other radioactive gases.</p> <p>5. Individual dosimetric control of personnel.</p> <p>6. Special training of staff, responsible for nuclear and radiation safety.</p> <p>7 Physical protection of nuclear installations and nuclear materials.</p>	<p>Inalienable; the license is valid 5 years (excepting subtypes “Special training of staff, responsible for nuclear and radiation safety” and “Physical protection of nuclear installations and nuclear materials”); part one of paragraph 3 article 25 and paragraphs 1, 2 of article 26 of this Law shall not apply when issuing license class 1</p>
		<p>1. Manufacture of devices and installations generating ionizing radiation.</p> <p>2. Use of devices and installations generating ionizing radiation.</p> <p>2. Use of radioactive substances, devices and installations containing radioactive substances.</p> <p>3. Storage of radioactive substances, devices and</p>	<p>For the subtype "manufacture of devices and installations generating ionizing radiation", for the subtype "use of devices and installations generating ionizing radiation" (except for x-ray equipment for inspection of hand luggage and baggage, x-ray diffractometers, spectrometers, analyzers) – inalienable; the validity term of the license is 5 years; the effect of the part one of paragraph 3 of Article</p>

22.	License for handling devices and installations generating ionizing radiation	installations containing radioactive substances.	25 and paragraphs 1, 2 of Article 26 of this Law at the issuance of a license shall not apply; class 1. For the subtype "use of devices and installations generating ionizing radiation" (x-ray equipment for inspection of hand luggage and baggage, x-ray diffractometers, spectrometers, analyzers) – inalienable; class 1
		4. Realization of radioactive substances, devices and installations containing radioactive substances.	
		5. Extraction and processing of natural uranium.	
23.	License for handling radioactive substances, devices and installations containing radioactive substances	1. Production of radioactive substances, devices and installations containing radioactive substances.	Inalienable; the license is valid 5 years; part one of paragraph 3 article 25 and paragraphs 1, 2 of article 26 of this Law shall not apply when issuing the license class 1
		2. The use of radioactive substances, devices and installations containing radioactive substances.	
		3. Storage of radioactive substances, devices and installations containing radioactive substances.	
		4. Sale of radioactive substances, devices and installations containing radioactive substances.	
24.	License for transportation, including transit, nuclear materials, radioactive substances, radioisotope sources of ionizing radiation, radioactive waste within the territory of the Republic of Kazakhstan		Inalienable; the validity term of the license is 5 years; the effect of the part one of paragraph 3 of Article 25 and paragraphs 1, 2 of Article 26 of this Law at the issuance of a license shall not apply; class 1
25.	Excluded by the Law of the Republic of Kazakhstan dated 25.02.2021 № 12-VII (effective from 01.01.2021).		
26.	License for handling radioactive materials	1. Sale of nuclear materials.	Inalienable; the license is valid 5 years; part one of paragraph 3 article 25 and paragraphs 1, 2 of article 26 of this Law shall not apply when issuing the license; class 1
		2. Use of nuclear materials	
		3. Storage of nuclear materials.	
		4. Extraction and proccession of natural uranium.
