6) the conditions for carrying out public procurement in accordance with Article 51 of this Law.

The information on public procurement specified in subparagraphs 1), 2), 3), 4), 5) and 6) of part eight of this paragraph, in the cases provided for by subparagraph 2-1) of part two of paragraph 2 of Article 79 of the Budget Code of the Republic of Kazakhstan, shall be approved by the customer in the annual public procurement plan.

The annual public procurement plan shall be approved by the customer within ten working days of execution of paragraph 7 of Article 153 of the Budget Code of the Republic of Kazakhstan.

When planning and implementing public procurement, customers shall be guided by the priority of acquiring innovative and high-tech goods, works, and services.

3. When drawing up the annual public procurement plan (preliminary annual public procurement plan), the customer is obliged to divide the goods, works, services into lots according to their homogeneous types and place of their delivery (performance, rendering).

4. It is not allowed to approve (clarify) the annual public procurement plan in an amount that does not correspond to the budget (development plan), allocated money from the Education Infrastructure Support Fund in accordance with the legislation of the Republic of Kazakhstan or an individual financing plan in aggregate according to the specifics of the economic classification (expenditure items) for which the conclusion of public procurement contracts is required.

5. When carrying out public procurement of works with available design and estimate documentation, customers are obliged, in the annual public procurement plan (preliminary annual public procurement plan),:

1) to indicate the prepayment (advance payment) worth thirty percent of the amount allocated for public procurement, ex. VAT;

2) to post design and estimate documentation examined in accordance with the legislation of the Republic of Kazakhstan on the public procurement website.

6. The customer, within five working days of approval of the annual public procurement plan (preliminary annual public procurement plan), is obliged to post it on the public procurement website, except for information constituting state secrets in accordance with the legislation of the Republic of Kazakhstan on state secrets and (or) classified information determined by the Government of the Republic of Kazakhstan.

7. Customers have the right to make amendments and (or) additions to the annual public procurement plan no more than twice a month.

The requirement of part one of this clause does not apply in the cases below:

1) the implementation of public procurement by state enterprises, legal entities, more than fifty percent of voting shares (participatory interests in the authorized capital) of which belong to the state, and legal entities affiliated with them;

2) the execution of orders, notifications on the elimination of violations identified as a result of control measures, including the results of in-house audit;

3) the distribution of distributed budget programs, as well as when specifying and adjusting the budget;

4) adoption of the decision provided for by subparagraph 1) of part one of paragraph 2 of Article 22 of this Law;

5) the purchase of goods, services related to representation expenses;

6) the purchase of goods, works, services due to savings resulting from public procurement;

7) implementation of public procurement at the expense of the allocated money from the Education Infrastructure Support Fund in accordance with the legislation of the Republic of Kazakhstan.

The customer, within five working days of the decision on amendments and (or) additions to the annual public procurement plan (preliminary annual public procurement plan), is obliged to post the amendments and (or) additions made on the public procurement website, except for the information constituting state secrets in accordance with the legislation of the Republic of Kazakhstan on state secrets and (or) containing classified information determined by the Government of the Republic of Kazakhstan.

8. Information on public procurement carried out in accordance with subparagraphs 4), 9), 31), 32) and 35) of paragraph 3 of Article 39 of this Law shall not be included in the annual public procurement plan (preliminary annual public procurement plan).

9. The decision to carry out public procurement is made by the customer on the basis of the approved or adjusted annual public procurement plan (preliminary annual public procurement plan).

Customers have the right to make a decision to carry out public procurement prior to the approval of the corresponding budget in the case of public procurement by tender using two-stage procedures.

10. It is not allowed to purchase goods, works, services that are not provided for by the approved (adjusted) annual public procurement plan (preliminary annual public procurement plan), except for the purchase of goods, works, services in accordance with subparagraphs 4), 9), 31), 32) and 35) of paragraph 3 of Article 39 of this Law.

11. A supplier of goods, works, services is selected in the manner prescribed by this Law, except for the cases specified in paragraph 3 of Article 39 of this Law.

12. When public procurement is carried out by the method of competition by a single operator in the field of public procurement, the confidentiality of the competitive quotations of potential suppliers is ensured until the results of public procurement are summed up, taking into account the requirements of paragraph 4 of Article 29 of this Law.

13. The customer, prior to entering into a public procurement contract, has the right to refuse to carry out public procurement in case of:

1) reduction of expenses for the purchase of goods, works, services provided for in the approved (adjusted) annual public procurement plan (preliminary annual public procurement plan), which occurred as a result of adjusting (revising) the relevant budget, draft budget, in accordance with the legislation of the Republic of Kazakhstan;

2) amendments and additions to the strategic plan of a state body, budget (development plan) or individual financing plan of the customer, which exclude the need to purchase goods, works, services provided for in the approved (adjusted) annual public procurement plan (preliminary annual public procurement plan), in accordance with the legislation of the Republic of Kazakhstan.

In the case specified in subparagraph 2) of part one of this paragraph, it is not allowed to make amendments and additions to the annual public procurement plan (preliminary annual public procurement plan) aimed at the purchase of such goods, works, services in the current year.

14. The customer or the organizer of public procurement, within five working days of the decision specified in paragraph 13 of this article, is obliged to notify the persons participating in the ongoing public procurement of the decision taken.

The single operator in the field of public procurement, from the moment of posting an announcement of the adoption of the decision, specified in paragraph 13 of this article, on the public procurement website, in the manner prescribed by the public procurement rules, unlocks the security of the application for participation in the tender (auction) and quote request in the form of money in the digital wallet of a potential supplier.

15. Public procurement financed from the funds of the Education Infrastructure Support Fund in accordance with the legislation of the Republic of Kazakhstan is implemented in compliance with the requirements of this Article.

Footnote. Article 5 is as amended by Law № 202-VI of the Republic of Kazakhstan as of 26.12.2018 (the enforcement procedure is in Art. 6); dated 15.11.2021 № 72-VII (shall be enforced from 01.01.2022); dated 30.12.2022 № 177-VII (shall be enforced ten calendar days after the date of its first official publication).

3. The authorized body or state audit and financial control bodies that have established the fact that a potential supplier, supplier provided false information on qualification requirements and (or) documents affecting the competitive quotation, no later than five working days from the date of establishing such a fact, notify in writing about this:

1) the customer, if such a fact is established after summarizing the results of public procurement;

2) the organizer of public procurement, a single organizer of public procurement, if such a fact is established before the results of public procurement.

At the same time, copies of documents confirming this fact must be attached to the written notification.

Footnote. Article 11 is in the wording of the Law of the Republic of Kazakhstan dated 26.12.2018 № 202-VI (shall be enforced from 01.01.2019); dated 15.11.2021 № 72-VII (shall be enforced from 01.01.2022).

Article 12. Registers formed in the field of public procurement

1. Authorized body:

1) carries out the formation and maintenance of the following republican registers in the field of public procurement (hereinafter referred to as registers):

customers;
public procurement contracts;
unscrupulous participants in public procurement;
complaints;

2) forms and maintains a database of passports of potential suppliers.

2. The register of customers is a list of legal entities obliged to purchase goods, works, services necessary for them to ensure their functioning, as well as the performance of state functions or statutory activities in accordance with this Law and the civil legislation of the Republic of Kazakhstan.

3. The register of public procurement contracts is a list of public procurement contracts concluded by customers in the relevant financial year, and contains information on the subject matter, quantitative and cost indicators of the public procurement contract, on the results of the fulfillment of contractual obligations by the parties.

Information on contracts concluded as a result of public procurement provided for in subparagraphs 9), 18), 31), 32) and 35) of paragraph 3 of Article 39 and Article 50 of this Law is not included in the register of public procurement contracts.

4. The register of unscrupulous participants in public procurement is a list of:

1) potential suppliers or suppliers who provided false information on qualification requirements and (or) documents that affect the competitive quotation;

2) potential suppliers, determined by the winners, who evaded the conclusion of a public procurement contract;

3) suppliers who have not fulfilled or improperly fulfilled their obligations under public procurement contracts concluded with them.

In the case specified in subparagraph 1) of part one of this paragraph, the organizer of public procurement, the single organizer of public procurement, the customer or the authorized body are obliged not later than thirty calendar days from the day they became aware of the fact of violation by the potential supplier or supplier of the legislation of the Republic of Kazakhstan on public procurement, file a lawsuit in court to recognize such a potential supplier or supplier as an unfair participant in public procurement.

In the case specified in subparagraph 3) of part one of this paragraph, the customer is obliged, no later than thirty calendar days from the day when he became aware of the fact of violation by the supplier of the legislation of the Republic of Kazakhstan on public procurement, to file a claim with the court to recognize such a supplier as an unfair participant in public procurement, except for cases that collectively satisfy the following conditions:

1) payment by the supplier of a penalty (fine, penalty);

2) full performance of contractual obligations;

3) no damage caused to the customer.

5. The register of unscrupulous participants in public procurement, provided for in subparagraphs 1) and 3) of part one of paragraph 4 of this article, is formed on the basis of court decisions that have entered into force.

The register of unscrupulous participants in public procurement, provided for in subparagraph 2) of part one of paragraph 4 of this article, is formed on the basis of a decision of the authorized body to recognize potential suppliers as unscrupulous participants in public procurement.

6. If a potential supplier does not agree with the decision of the authorized body to recognize him as an unscrupulous participant in public procurement, provided for in part two of paragraph 5 of this article, then such a potential supplier no later than ten working days from the date when he became aware of the inclusion in the register of unscrupulous participants in public procurement, has the right to apply to the conciliation commission in the manner determined by the authorized body.

The conciliation commission considers the appeal of a potential supplier who evaded the conclusion of a public procurement contract and decides to exclude or refuse to exclude such a potential supplier from the register of unscrupulous participants in public procurement.

If a decision is made to exclude a potential supplier from the register of unscrupulous participants in public procurement, the customer applies to the authorized body.

The authorized body makes a decision to exclude a potential supplier from the register of unscrupulous participants in public procurement, taking into account the decision of the conciliation commission.

7. The conciliation commission must include representatives of the National Chamber of Entrepreneurs of the Republic of Kazakhstan.

8. Suppliers included in the register of unscrupulous participants in public procurement on the grounds provided for in subparagraphs 1) and 3) of part one of paragraph 4 of this article are not allowed to participate in public procurement within twenty-four months from the date of entry into force of a court decision on recognizing them as unfair participants in public procurement.

Potential suppliers included in the register of unscrupulous participants in public procurement on the grounds provided for in subparagraph 2) of part one of paragraph 4 of this article are not allowed to participate in public procurement within twenty-four months from the date of the decision by the authorized body to recognize them as unscrupulous participants in public procurement.

The information contained in the register of unscrupulous participants in public procurement is excluded from the specified register no later than one working day from the date of expiration of the period established by parts one and two of this paragraph.

9. The grounds for exclusion from the register of unscrupulous participants in public procurement of information about the unscrupulous participant in public procurement are:

- 1) expiration of the terms established by parts one and two of paragraph 8 of this article;

2) the presence of a judicial act that has entered into legal force to cancel the decision to recognize a participant in public procurement as an unfair participant;

3) the decision of the authorized body, adopted following the results of consideration by the conciliation commission of the application of a potential supplier to exclude him from the register of unscrupulous participants in public procurement.

10. The decision to include a potential supplier or supplier in the register of unscrupulous participants in public procurement may be appealed by him in accordance with the legislation of the Republic of Kazakhstan.

11. Information contained in registers, with the exception of information constituting state secrets in accordance with the legislation of the Republic of Kazakhstan on state secrets and (or) containing official information of limited distribution, determined by the Government of the Republic of Kazakhstan, is posted on the public procurement web portal and must be available for familiarization to interested parties free of charge.

12. The register of unscrupulous participants in public procurement does not include potential suppliers and suppliers identified in the cases provided for in subparagraphs 1), 2), 27) and 36) of paragraph 3 of Article 39 of this Law.

13. The register of complaints is a list of complaints from potential suppliers and suppliers, submitted through the public procurement web portal to the authorized body, and contains information about the decisions taken as a result of the consideration of complaints and issued orders (notices).

14. The base of passports of potential suppliers is an electronic database containing information about potential suppliers obtained from state and non-state information systems and formed on the public procurement web portal in accordance with the rules for public procurement.

Article 25. Securing an application for participation in a tender

1. A potential supplier secures his/her/its application for participation in a tender to guarantee that, in case of becoming a successful tenderer, he/she/it will enter into a public procurement contract and deposit a security for the execution of the public procurement contract, as well as the amount in accordance with Article 26 of this Law (if any).

2. The security of the application for participation in the tender is deposited in the amount of one percent of the amount allocated for the purchase of goods, works, services.

3. The potential supplier has the right to choose one of the following types of security of the application for participation in the tender:

1) money in the electronic wallet of a potential supplier. The provision of a guarantee monetary contribution is allowed in cases provided for in Article 50 of this Law;

2) a bank guarantee provided in the form of an electronic document. The provision of a bank guarantee in paper-based form is allowed in the cases specified in Article 50 of this Law

It is not allowed for a potential supplier to commit actions that can lead to the emergence of a right of third parties to claim, in whole or in part, the money in his/her/its digital wallet.

It is not allowed for the single operator in the field of public procurement to use money in the digital wallet, except for the cases specified in paragraphs 4 and 5 of this article.

It is not allowed for a single operator in the field of public procurement to transfer its own money to a bank account intended for settlement operations provided for by this Law.

4. The security of the application for participation in the tender is blocked and is not returned to a potential supplier in the event of one of the following cases:

1) a potential supplier, determined as a successful tenderer, evaded the conclusion of a public procurement contract;

2) the successful tenderer, having entered into a public procurement contract, failed to fulfill or improperly fulfilled, and also untimely fulfilled, the requirements established by the tender documentation on the depositing and (or) the timing of the security for the execution of the public procurement contract.

5. In the event of one of the cases specified in paragraph 4 of this article, the amount of security of the application for participation in the tender shall be credited to the income of the corresponding budget, state enterprise, legal entity, fifty or more percent of voting shares (participatory interests in the authorized capital) of which belong to the state, or legal entities affiliated with them.

6. The single operator in the field of public procurement automatically unblocks the security of the application for participation in the tender blocked by it for a potential supplier in case of:

1) this potential supplier's withdrawal of his/her/its application for participation in the tender before the expiration of the deadline for submitting applications for participation in the tender;

2) signing a protocol on the results of public procurement by tender. The specified case does not apply to the tender participant determined as successful tenderer;

3) a potential supplier's signing of a public procurement contract and depositing security for the execution of a public procurement contract, as well as the amount in accordance with Article 26 of this Law (if any).

7. At the potential supplier's request to return money placed in his/her/its digital wallet, the single operator in the field of public procurement, within three working days of such a request, returns the specified money, which was not blocked or the blocking of which was terminated.

Footnote. Article 25 is as amended by Law № 202-VI of the Republic of Kazakhstan as of 26.12.2018 (shall be enforced from 01.01.2020); dated 15.11.2021 № 72-VII (shall be enforced from 01.01.2022).

Article 26. Anti-dumping measures in public procurement

Footnote. The heading of Article 26 as amended by the Law of the Republic of Kazakhstan dated 15.11.2021 № 72-VII (shall be enforced from 01.01.2022).

1. The dumping price is the price offered by a potential supplier, which is below the threshold value determined by the rules for public procurement.

2. It is not allowed to offer dumping prices, except for the cases stipulated by the public procurement rules, provided that the potential supplier, in addition to the security for the execution of a contract, deposits an amount equal to the amount reduced from the minimum allowable price, which is not recognized as dumping.

Footnote. Article 26 is as amended by Law № 202-VI of the Republic of Kazakhstan as of 01.01.2019); as amended by the Law of the Republic of Kazakhstan dated 15.11.2021 № 72-VII (shall be enforced from 01.01.2022).

Article 27. Consideration of applications for participation in the tender

1. Consideration of applications for participation in the tender shall be carried out by the tender commission in order to identify potential suppliers who meet the qualification requirements and requirements of the tender documentation.

2. The customer, the public procurement organizer, the single public procurement organizer, if necessary, form an expert commission or appoint an expert to prepare an expert opinion regarding the compliance of goods, works, services offered by potential suppliers with the technical specification, which is an integral part of the tender documentation.

The procedure for the formation of an expert commission and (or) the definition of an expert, as well as the requirements for experts are determined by the rules for public procurement.

3. According to the results of consideration of applications for participation in the tender for the compliance of potential suppliers with the qualification requirements and requirements of the tender documentation, a protocol of preliminary admission to participation in the tender shall be drawn up which is signed by the chairman and all members of the tender commission and the secretary of the tender commission on the day of taking the decision on preliminary consideration of applications for participation in the tender.

The decision of the tender commission on preliminary admission of potential suppliers to participate in the tender shall be taken within ten working days from the date of opening of applications for participation in the tender.

The protocol of preliminary admission for participation in the tender shall contain information about potential suppliers which applications for participation in the tender were rejected, with the detailed description of the reasons of their rejection including with indication of the data and documents confirming their discrepancy to qualification requirements and requirements of the tender documentation.

In case of conformity of potential suppliers with the qualification requirements and the requirements of the tender documentation, the protocol of preliminary admission to participation in the tender shall not be drawn up.

4. In case of identification of potential suppliers not complying with the qualification requirements and requirements of the tender documentation, the tender commission shall grant such potential suppliers with the right to bring applications for participation in the tender in accordance with the qualification requirements and requirements of the tender documentation within three working days from the date of placement of the protocol of preliminary admission to participation in the tender on the web portal of public procurement.

The right to bring the applications for participation in the tender in accordance with the qualification requirements and requirements of the tender documentation shall not be granted to potential suppliers:

- 1) who violated the requirements of Article 6 of this Law;
- 2) provided false information on qualification requirements and requirements of the tender documentation;
- 3) did not submit a security of application for participation in the tender or did not submit it in the amount determined by the rules of public procurement.

5. When considering applications for participation in the tender for the subject of compliance of potential suppliers with the qualification requirements and requirements of the tender documentation, the tender commission shall have the right:

1) through the public procurement web portal, request materials and clarifications from potential suppliers in connection with their applications in order to simplify the consideration, evaluation and comparison of applications for participation in the tender;

2) to request the necessary information from the relevant individuals or legal entities, state bodies in order to clarify the information contained in the applications for participation in the tender, in the written form and (or) in the form of an electronic document.

It is not allowed to send a request and other actions of the tender commission related to the addition of the application for participation in the tender with missing documents, replacement of documents submitted in the application for participation in the tender, bringing into compliance with improperly executed documents after the expiration of the term for bringing applications for participation in the tender in accordance with the qualification requirements and requirements of the tender documentation provided for in paragraph 4 of this Article.

The tender commission shall consider an application for participation in the tender as meeting the requirements of the tender documentation, if it contains grammatical or arithmetic errors that can be corrected without affecting the content of the submitted application.

The tender commission at repeated consideration of applications for participation in the tender shall not allow rejection of potential suppliers on the ground which are not provided in the protocol of preliminary admission to participation in the tender.

6. A potential supplier may not be allowed to participate in the tender (recognized as a participant of the tender) after bringing applications for participation in the tender in compliance with the qualification requirements and requirements of the tender documentation in accordance with paragraph 4 of this Article, if:

1) he (she) and (or) his (her) subcontractor (co-executor) are determined as not complying with the qualification requirements on the grounds determined by this Law and the rules of public procurement;

2) he (she) violated the requirements of Article 6 of this Law;

3) his (her) application for participation in the tender is determined as not complying with the requirements and conditions of the tender documentation on the grounds determined by this Law and the rules of public procurement.

7. If a potential supplier is not allowed to participate in the tender on the grounds provided for by subparagraph 2) of paragraph 6 of this Article, then the protocol on the results of public procurement by the method of tender shall specify the reasons for rejection of the application for participation in the tender of such a potential supplier, indicating the confirming information and documents that were the grounds for the rejection of the application for participation in the tender.

8. According to the results of re-consideration of applications for participation in the tender, the tender commission within five working days from the date of expiration of

repeated submission of applications for participation in the competition by potential suppliers, brought in compliance with the qualification requirements and requirements of the tender documentation shall:

- 1) determine the potential suppliers complying with the qualification requirements and requirements of the tender documentation and recognize them as participants of the tender;
- 2) apply and calculate the criteria influencing the tender price offer.

9. The tender price offer shall be opened by the web portal of public procurement automatically, after consideration of the application for participation in the tender for compliance with the qualification requirements and requirements of the tender documentation

10. The web portal of public procurement shall automatically compare the conditional prices of the tender participants and determine the winner of the tender on the basis of the lowest conditional price.

The tender participant who took the second place on the basis of evaluation and comparison of tender offers shall be determined on the basis of the price following the lowest conditional price.

Conditions on recognition of the winner (the participant of the tender who has taken the second place following the results of evaluation and comparison of tender price offers) at equality of conditional prices shall be determined by the rules of carrying out public procurements.

Footnote. Article 27 as amended by the Law of the Republic of Kazakhstan dated 26.12.2018 № 202-VI (shall be enforced from 01.01.2019); dated 15.11.2021 № 72-VII (shall be enforced from 01.01.2022).

Article 28. The protocol on the results of public procurement by the method of tender

1. The protocol on the results of public procurement by the method of tender shall be automatically generated and placed by the web portal of public procurement with simultaneous notification by e-mail to all members of the tender commission and all potential suppliers who have applied for participation in the tender.

2. The protocol on the results of public procurement by the method of tender should contain the following information:

1) on bringing applications for participation in the tender in accordance with the qualification requirements and requirements of the tender documentation;

2) on the requests of the tender commission in accordance with subparagraphs 1) and 2) of paragraph 5 of Article 27 of this Law;

3) on potential suppliers whose applications for participation in the tender were rejected, with a detailed description of the reasons for their rejection, including information and documents confirming their non-compliance with the qualification requirements and the requirements of the tender documentation;

4) other information determined by the rules of carrying out public procurement.

3. The protocol on the results of public procurement by the method of tender may be appealed by the participant in the manner established by this Law.

Article 29. Grounds and consequences of recognition of public procurement by the method of tender as failed

1. Public procurement by the method of tender shall be recognized as failed on one of the following grounds:

- 1) absence of the submitted applications for participation in the tender;
- 2) submission of less than two applications for participation in the tender;
- 3) if no potential supplier is allowed to participate in the tender;
- 4) if one potential supplier is allowed to participate in the tender.

2. If public procurement by the method of tender is recognized as failed, the customer shall take one of the following decisions:

- 1) on conducting the repeated public procurement by the method of tender;
- 2) on changing the tender documentation and conducting the repeated public procurement by the method of tender.

3) is excluded by the Law of the Republic of Kazakhstan dated 26.12.2018 № 202-VI (shall be enforced from 01.01.2019).

3. In case of recognition of the repeated public procurement by the method of tender as failed, the customer shall have the right to carry out public procurement by the method from a single source in the following cases:

1) absence of the submitted applications for participation in the tender. At the same time, the potential supplier to whom an invitation to participate in public procurement by the method from a single source is sent, shall be determined by the customer;

2) submission of less than two applications for participation in the tender. At the same time, an invitation to participate in public procurement from a single source shall be sent to a potential supplier who submitted an application for participation in the tender. The price of the concluded contract on public procurement shall not exceed the tender price offer of the potential supplier specified in the application for participation in the tender.

4. In cases of recognition of public procurement by the tender method as invalid on the grounds provided for in subparagraphs 2), 3) and 4) of paragraph 1 of this article, the competitive quotations of potential suppliers are not opened.

Footnote. Article 29 as amended by the Law of the Republic of Kazakhstan dated 26.12.2018 № 202-VI (shall be enforced from 01.01.2019); dated 15.11.2021 № 72-VII (shall be enforced from 01.01.2022).

The auction step is from half a percent to five percent of the lowest starting price of the auction participant for the purchase of goods that are the subject of the auction.

3. When holding an auction by a single operator in the field of public procurement, the confidentiality of potential suppliers is ensured until the expiration of the auction.

4. During the auction, auction participants submit proposals for the price of goods that are the subject of the auction, providing for a reduction in the current minimum price offer by an amount within the auction step.

5. During the auction, any auction participant has the right to submit an offer on the price of the goods that are the subject of the auction, reduced from the lowest starting price of the auction participant to purchase the goods that are the subject of the auction, regardless of the step of the auction, provided that there is no current minimum offer.

6. The auction participant is not entitled to submit an offer for the price of the goods that are the subject of the auction, lower than the current minimum price offer for the goods that are the subject of the auction, if such an offer for the price of the goods that are the subject of the auction is submitted by the same participant of the auction.

7. The time for accepting applications from auction participants on the price of the goods that are the subject of the auction is thirty minutes from the beginning of the auction, as well as ten minutes after the receipt of the last offer on the price of the goods that are the subject of the auction. If during the specified time no offers for a lower price of the goods that are the subject of the auction were received, the auction ends.

8. The public procurement web portal automatically generates the auction protocol.

9. In the event that the starting price of the goods that are the subject of the ongoing auction was offered, equal to the starting price offered by another auction participant, the starting price of the goods offered earlier than other bids is recognized as the lowest starting price.

10. If within thirty minutes after the start of the auction, none of the participants in the auction has submitted an offer for the price of the goods that are the subject of the auction, the potential supplier who won the first place in the auction is recognized as the potential supplier whose starting price is the lowest.

Article 34. Consideration of applications for participation in the auction

1. Consideration of applications for participation in the auction is carried out by the auction commission in order to identify potential suppliers that meet the qualification requirements and requirements of the auction documentation.

2. Consideration of applications for participation in the auction begins by the auction commission with the application of a potential supplier, whose price is the lowest.

3. In the event that, based on the results of consideration of application of a potential supplier, the auction commission recognizes such an application as meeting the qualification requirements and requirements of the auction documentation, a protocol is formed on the results of public procurement by the auction method. In this case, the applications of other participants in the auction are not opened.

If, based on the results of consideration of the application of a potential supplier, the auction commission recognizes such an application as not meeting the qualification requirements and requirements of the auction documentation, an interim protocol is formed on the results of public procurement by the auction method. In such cases, the auction commission proceeds to consider the application of a potential supplier, whose price is next after the lowest price.

4. Each application of a potential supplier for participation in the auction for compliance with the qualification requirements and requirements of the auction documentation is considered by the auction commission within two working days from the date of the auction and (or) the placement of an interim protocol on the results of public procurement.

5. In cases stipulated by the rules for public procurement, the customer, the organizer of public procurement, the single organizer of public procurement form an expert commission or appoint an expert to prepare an expert opinion regarding the compliance of goods, works, services offered by potential suppliers with the technical specification, which is an integral part of auction documentation.

The procedure for the formation of an expert commission and (or) the definition of an expert, as well as the requirements for experts are determined by the rules for public procurement.

6. When considering applications for participation in the auction, the auction commission has the right to:

1) through the public procurement web portal, request materials and clarifications from potential suppliers in connection with their applications in order to simplify the consideration, evaluation and comparison of applications for participation in the auction;

2) in order to clarify the information contained in the applications for participation in the auction, through the public procurement web portal, request the necessary information from the relevant individuals or legal entities, state bodies.

It is not allowed to send a request and other actions of the auction commission related to supplementing the application for participation in the auction with missing documents, replacing the documents submitted in the application for participation in the auction, bringing improperly executed documents in line with the qualification requirements and requirements of the auction documentation.

7. The auction commission considers the application for participation in the auction as meeting the requirements of the auction documentation if it contains grammatical or arithmetic errors that can be corrected without affecting the essence of the submitted application.

Article 35. Protocol on the results of public procurement by the auction method

1. The protocol on the results of public procurement by the auction method is automatically generated and posted by the public procurement web portal on the day of the end of consideration of the application of a potential supplier recognized as meeting the qualification requirements and requirements of the auction documentation, with simultaneous notification by e-mail of all members of the auction commission and all potential suppliers, who submitted applications for participation in the auction.

2. The protocol on the results of public procurement by the auction method must contain the following:

1) information on the requests of the auction commission in accordance with subparagraphs 1) and 2) of part one of paragraph 6 of Article 34 of this Law;

2) information about potential suppliers whose applications for participation in the auction were rejected, with a detailed description of the reasons for their rejection, including information and documents confirming their non-compliance with the qualification requirements and requirements of the auction documentation;

3) other information determined by the rules for public procurement.

3. The protocol on the results of public procurement by the auction method may be appealed by the auction participant in the manner prescribed by this Law.

Footnote. Article 36 as amended by the Law of the Republic of Kazakhstan dated 15.11.2021 № 72-VII (shall be enforced from 01.01.2022).

Article 36. Grounds and consequences of recognition of public procurement by the auction method as failed

1. Public procurement by the auction method shall be recognized as failed on one of the following grounds:

- 1) absence of the submitted applications for participation in the auction;
- 2) submission of less than two applications for participation in the auction;
- 3) if all participants of the auction are found not to meet the qualification requirements and the requirements of the auction documentation;
- 4) if, based on the results of consideration of the bids of the auction participants, only one auction participant is recognized as corresponding to the qualification requirements and the requirements of the auction documentation.

2. If public procurement by the auction method is considered failed, the customer shall take one of the following decisions:

Article 40. Conduct of public procurement by a single source method on the failed public procurement

1. In conduct of public procurement by a single source method in cases provided for in paragraph 2 of Article 39 of this Law, the organizer of public procurement shall send an invitation to a potential supplier through the web portal of public procurement to participate in public procurement, which should contain the following information:

- 1) name and location of the organizer of public procurement;
- 2) description of the purchased goods, works, services with indication of national standards, and in case of their absence of interstate standards for the purchased goods, works, services. In the absence of national and interstate standards, the required functional, technical, qualitative and operational characteristics of the purchased goods, works and services shall be specified, taking into account the regulation of public procurement.

At the same time, the description of the purchased goods must contain a requirement for the suppliers to provide documents confirming the compliance of the supplied goods with the requirements established by technical regulations, provisions of standards or other documents with the legislation of the Republic of Kazakhstan.

At conduct of public procurement of the works demanding design and estimate documentation instead of description and the required functional, technical, qualitative and operational characteristics of the purchased works, the invitation should contain the design and estimate documentation approved in accordance with the established procedure;

3) the number of goods, the volume of performed works, provided services, which are the subject of public procurement;

4) the place of delivery of goods, performing works, rendering services;

5) required terms for the supply of goods, performing works, rendering services, provision of guarantees on the quality of the offered goods, works, services;

6) conditions of payment and draft of a public procurement contract;

7) conditions, form, volume and method of making the security of execution of the contract on public procurement in the cases provided for by the rules of public procurement;

8) information on the amounts allocated for the purchase of goods, works and services that are the subjects of public procurement by the method from a single source;

9) a list of qualification requirements provided for in Article 9 of this Law, as well as a list of documents which a potential supplier must submit to confirm its compliance with qualification requirements, except when public procurement by the method from a single source is carried out on the basis of subparagraph 2) of paragraph 2 of Article 39 of this Law;

10) the place and term for the provision by a potential supplier of documents confirming its compliance with shown qualification requirements except when public procurement by the method from a single source is carried out on the ground of subparagraph 2) of paragraph 2 of Article 39 of this Law, as well as information provided for by paragraph 2 of this Article.

2. A potential supplier who has expressed a desire to supply goods, perform works, render services that are the subjects of conducting public procurement by the method from a single source, through the web portal of public procurement should provide the following information to the organizer of public procurement within the prescribed period:

1) description of the goods, works, services offered by a potential supplier, indicating the persons whom the potential supplier provides to involve as subcontractors (co-executors) of works or services;

2) documents confirming the compliance with qualification requirements of the potential supplier and the persons whom he (she) provides to involve as subcontractors (co-executors) of works or services, except when public procurement by the method from a single source is carried out on the ground of subparagraph 2) of paragraph 2 of Article 39 of this Law;

3) justification of the price for the offered goods, works, services.

3. In implementation of public procurement by the method from a single source in the case provided for in subparagraph 1) of paragraph 2 of Article 39 of this Law, the participant of the tender (auction), recognized as failed, invited by the organizer of public procurement to participate in public procurement by the method from a single source, shall have the right not to re-submit the documents confirming the compliance of this participant of the tender (auction) with qualification requirements to the same organizer of public procurement.

4. The organizer of public procurement shall consider the documents submitted by the potential supplier for their compliance with the qualification requirements, except when public procurement by the method from a single source is carried out on the ground of subparagraph 2) of paragraph 2 of Article 39 of this Law, as well as the requirements established by the rules for public procurement.

5. The organizer of public procurement within three working days from the date of provision of the requested information by the potential supplier shall form and place on the web portal of public procurement the protocol on the results of public procurement by the method from a single source.

Requirements for sending an invitation to a potential supplier, providing them with necessary information through the public procurement web portal and placing by the public procurement organizer of the protocol on the results of public procurement by the method from a single source on the public procurement web portal do not apply to public procurement by the method from a single source, information about which constitutes state secrets in accordance with the legislation of the Republic of Kazakhstan on state secrets and (or) contain official information of limited distribution, determined by the Government of the Republic of Kazakhstan.

Footnote. Article 40 as amended by the Law of the Republic of Kazakhstan dated 26.12.2018 № 202-VI (shall be enforced from 01.01.2019); as amended by the Law of the Republic of Kazakhstan dated 30.12.2022 № 177-VII (shall be enforced ten calendar days after the date of its first official publication).

Article 41. Public procurement from a single source by direct conclusion of a public procurement contract

1. Public procurement of goods, works, services from a single source by direct conclusion of a public procurement contract on the grounds provided for in paragraph 3 of Article 39 of this Law is carried out in exceptional cases when it is impossible to purchase such goods, works, services by other means specified in subparagraphs 1), 2), 3), 5) and 6) of paragraph 1 of Article 13 of this Law.

2. If a decision is made to carry out public procurement from a single source by direct conclusion of a public procurement contract, the customer determines the supplier and concludes a public procurement contract with him through the public procurement web portal.

3. The customer, no later than ten working days from the date of conclusion of the public procurement contract, is obliged to place on the web portal of public procurement a report on

public procurement from a single source by direct conclusion of a public procurement contract in the form determined by the rules for public procurement.

The report must contain the following:

1) information about the official who made the decision to conclude a public procurement contract from a single source by direct conclusion of a public procurement contract;

2) justification of the reasons for the impossibility of public procurement by other means specified in subparagraphs 1), 2), 3), 5) and 6) of paragraph 1 of Article 13 of this Law;

3) justification for the choice of supplier;

4) justification of the price of the concluded public procurement contract, as well as other conditions of the public procurement contract.

4. The decision to carry out public procurement from a single source by direct conclusion of a public procurement contract is made by the first head of the customer or the person acting as such, or the head of the apparatus of the central state body or another official exercising the powers of the head of the apparatus.

5. Public procurement from a single source by direct conclusion of a public procurement contract is carried out in compliance with the principle of public procurement provided for in subparagraph 1) of Article 4 of this Law.

A person who has made a decision to conduct public procurement from a single source by direct conclusion of a public procurement contract is personally responsible for compliance with the principles of public procurement provided for in subparagraph 1) of Article 4 of this Law.

6. The requirement of paragraph 1 of this Article shall not apply to public procurement by single-source method through direct contracting of public procurement, information on which constitutes state secrets under the legislation of the Republic of Kazakhstan on state secrets and (or) contains official information of limited distribution, determined by the Government of the Republic of Kazakhstan, as well as to public procurement of financial services in terms of professional liability insurance of medical professionals and public procurement carried out on the basis of subparagraphs 4), 9), 17), 18), 20), 21), 23), 26), 31), 32), 35), (40), 41) and 46) of paragraph 3 of Article 39 of this Law.

7. The requirements of paragraphs 2 and 3 of this article do not apply to public procurement from a single source by direct conclusion of a public procurement contract, information about which constitutes state secrets in accordance with the legislation of the Republic of Kazakhstan on state secrets and (or) contains official information of limited distribution determined by the Government of the Republic of Kazakhstan, as well as for public procurement carried out on the basis of subparagraphs 4), 9), 18), 23), 31), 32) and 35) of paragraph 3 of Article 39 of this Law.

Footnote. Article 41 as amended by the Law of the Republic of Kazakhstan dated 15.11.2021 № 72-VII (shall be enforced from 01.01.2022); as amended by the Law of the Republic of Kazakhstan dated 30.12.2022 № 177-VII (shall be enforced ten calendar days

after the date of its first official publication); dated 19.04.2023 № 223-VII (shall be enforced ten calendar days after the date of its first official publication); dated 19.04.2024 № 74-VIII (enacted six months after the date of its first official publication).

Article 42. Conduct of public procurement of goods through commodity exchanges

1. Public procurement of goods through commodity exchanges shall be conducted in accordance with the legislation of the Republic of Kazakhstan on commodity exchanges on the list of exchange goods in the mode of double counter auction.

2. If the annual volume of public procurement of goods included in the list of exchange goods does not exceed the minimum batch size specified in the list of exchange goods, the customer shall have the right to choose another method of public procurement of goods.

Chapter 8. PUBLIC PROCUREMENT CONTRACT

Article 43. Conclusion of a public procurement contract

1. Draft contracts on public procurement shall be drawn up in accordance with the standard contracts on public procurement of goods, public procurement of works and public procurement of services approved by the authorized body.

For certain types of goods, works and services, the authorized body may approve standard contracts on public procurement.

Contracts on public procurement concluded in accordance with paragraph 3 of Article 39 of this Law may be drawn up in a different form, taking into account the requirements of the legislation of the Republic of Kazakhstan.

Customers have the right to conclude results-oriented public procurement contracts (service model contracts).

The procedure for public procurement under results-oriented contracts (service model contracts) is determined by the rules for public procurement.

2. The customer shall send to the winner the draft of public procurement contract, certified by electronic digital signature through the web portal of public procurement:

1) within five working days from the date of expiry of the period for appeal of the protocol on the results of public procurement by the method of tender (auction);

2) within five working days from the date of determining the winner of public procurement by the method of price proposals request.

In cases when the procedures for selecting a supplier, including the procedures for appealing the results of public procurement conducted under the preliminary annual public procurement plan, are completed before the approval of the relevant budget (development plan), the draft of public procurement contract shall be sent to the winner within five working days from the date of approval of the relevant budget (development plan).

3. The draft of public procurement contract shall be certified by the winner of public procurement by the method of tender, auction, price proposals request by means of electronic digital signature within three working days from the date of receipt of notification with

attachment of the draft of public procurement contract on the web portal of public procurement.

4. The requirements for conclusion of a public procurement contract through the web portal of public procurement do not apply to the cases provided for in subparagraphs 4), 9), 17), 18), 20), 21), 23), 26), 31), 32), 35), 40), 41) paragraph 3 of Article 39 and Article 50 of this Law.

At the same time, the term for concluding public procurement contracts provided for in part one of this paragraph may not be more than thirty calendar days from the date of sending the draft of a public procurement contract to a potential supplier.

6. In cases of concluding a public procurement contract with a non-resident of the Republic of Kazakhstan, it is allowed to issue a public procurement contract in the form offered by it on paper, taking into account the requirements of the legislation of the Republic of Kazakhstan.

7. If the potential supplier, determined by the winner, did not sign the draft contract on public procurement within the terms established by paragraph 3 of this article, or, having concluded the contract on public procurement, did not make a security for the execution of the contract on public procurement and (or) the amount in accordance with Article 26 of this Law (if any), the customer sends a notification about the need to sign a draft contract on public procurement within three working days.

If the potential supplier, within three working days from the date of receipt of the notice through the public procurement web portal, has not submitted the signed public procurement contract to the customer, the customer, within two working days from the day the winner evaded the conclusion of the public procurement contract, sends a draft contract on public procurement to the potential supplier who took second place, certified by an electronic digital signature, through the web portal of public procurement.

The draft contract on public procurement must be certified by the potential supplier, who took second place, by means of an electronic digital signature within three working days from the date of submission to him of the draft contract on public procurement.”;

8. If a potential supplier, who took the second place, did not sign the contract on public procurement, signed by the customer within the period established by paragraph 7 of this Article, the customer shall conduct the repeated public procurement.

9. The supplier, within ten working days from the date of entry into force of the public procurement contract, is obliged to deposit a security for the execution of the public procurement contract, as well as the amount in accordance with Article 26 of this Law (if any).

At the same time, the customer, within two working days from the date of expiration of the term for making the security for the execution of the public procurement contract, as well as the amount in accordance with Article 26 of this Law (if any), sends the supplier a notice of intention to terminate this contract through the public procurement web portal. If the

supplier, within three working days from the date of receipt of the notice through the public procurement web portal, has not submitted a security for the execution of the public procurement contract, the customer sends a notice of termination of this contract.

10. The amount of security for execution of the public procurement contract shall be established by the organizer of public procurement in the amount of three percent of the total sum of the contract on public procurement.

In case if the contract on public procurement provides for the payment of the advance, the supplier in addition to security for execution of the contract on public procurement shall be obliged to make an advance payment in the amount equal to the advance.

The supplier shall have the right to refuse from the full amount of the advance or part of the advance. In case of partial refusal of the advance, the supplier shall be obliged to make an advance payment in the amount equal to the part of the advance.

As the obligations under the public procurement contract are fulfilled, the customer, upon the written notification of the supplier, reduces the amount of the advance payment in proportion to the performed obligations provided for in the public procurement contract.

If a public procurement contract is concluded based on the results of price proposals request, through commodity exchanges, from a single source, carried out on the basis of subparagraph 2) of paragraph 2, and paragraph 3 of Article 39 of this Law, the customer shall have the right to establish a requirement for making an advance payment.

11. In case of conclusion of a public procurement contract with a validity period of more than one financial year, the amount of security for the execution of a public procurement contract for the current financial year is calculated based on the annual amount of the public procurement contract provided for in the relevant financial year.

The supplier has the right to choose one of the following types of security for the execution of the public procurement contract and advance payment security (if the public procurement contract provides for an advance payment):

- 1) money in the provider's e-wallet;
- 2) a bank guarantee provided in the form of an electronic document. The provision of a bank guarantee on paper is allowed in the cases provided for in subparagraphs 4), 9), 17), 18), 20), 21), 23), 26), 31), 32), 35), 40) and 41) of paragraph 3 of Article 39 and Article 50 of this Law;
- 3) a supplier's civil liability insurance contract concluded in accordance with a standard insurance contract for the purposes of ensuring the execution of a public procurement contract and securing an advance, approved by the authorized body in agreement with the authorized body for regulation, control and supervision of the financial market and financial organizations.

The object of the insurance contract for the purposes of ensuring the execution of the public procurement contract and securing an advance is the supplier's property interest associated with his obligation to compensate for property damage caused to the customer as a

result of non-fulfillment or improper fulfillment of his obligations under the public procurement contract.

An insured event under an insurance contract for the purposes of ensuring the execution of a public procurement contract and securing an advance payment is recognized as the fact of the supplier's civil liability to compensate for damage caused to the customer's property interests.

The sum insured is determined by the insurance contract for the purposes of ensuring the execution of the public procurement contract and may not be less than three percent of the total amount of the public procurement contract.

It is not allowed for a potential supplier to take actions that lead to the emergence of third parties' right to claim in whole or in part of the money in the electronic wallet until the full fulfillment of obligations under the public procurement contract.

It is not allowed for a single operator in the field of public procurement to use the money in the electronic wallet deposited by the supplier for purposes not provided for by this Law.

Security deposit requirement of the contract on public procurement and securing an advance (in the event that the contract on public procurement provides for an advance) does not apply to suppliers determined based on the results of public procurement by the method through commodity exchanges, as well as suppliers who are not business entities, in the case provided for paragraph 6 of Article 51 of this Law.

The requirement to provide security for the execution of the public procurement contract and to provide an advance (if the public procurement contract provides for an advance) for public procurement in a single-source way through direct conclusion of a public procurement contract is determined by the customer, taking into account the optimal and efficient spending of money.

12. The customer returns the deposited security for the performance of the public procurement contract, as well as the amount of security in case of taking anti-dumping measures (if any) to the supplier within five working days from the date of full and proper performance by the supplier of its obligations under the public procurement contract, as well as in the event of replacement by the supplier of a method to ensure the execution of the public procurement contract during the validity period of the public procurement contract.

Ensuring the execution of the public procurement contract, as well as the amount paid by the supplier in accordance with Article 26 of this Law (if any), is not returned to the supplier in case of termination of the public procurement contract due to the supplier's failure to fulfill contractual obligations.

Ensuring the execution of a public procurement contract and the amount paid by the supplier in accordance with Article 26 of this Law (if any) is credited to the income of the relevant budget, state enterprise, legal entity, fifty or more percent of voting shares (stakes in the authorized capital) of which belong the state, or legal entities affiliated with them.

When the supplier enters the security for the performance of the public procurement contract and the amount in accordance with Article 26 of this Law (if any) through an electronic wallet, the single operator in the field of public procurement automatically blocks the corresponding amount until the supplier fully and properly fulfills its obligations under the public procurement contract.

The single operator in the field of public procurement, within three working days from the date of full and proper fulfillment by the supplier of obligations under the public procurement contract, automatically returns to the electronic wallet of the supplier the amount of money deposited to ensure the execution of the public procurement contract, as well as the amount in accordance with Article 26 of this Law (if any).

13. The contract on public procurement should provide for a penalty (fine, surcharge) for non-performance or improper performance of obligations under the contract on public procurement. The amount of penalty shall be determined in accordance with the civil legislation of the Republic of Kazakhstan.

14. The contract on public procurement is concluded for a period of one financial year.

For the purpose of optimal and efficient spending of money used for public procurement, it is allowed to conclude a public procurement contract for a period of more than one financial year.

The conclusion of contracts on public procurement for a period of more than three years is carried out in accordance with the budgetary legislation of the Republic of Kazakhstan.

15. State enterprises on the right of economic management, as well as legal entities, which fifty or more percent of the voting shares (stakes in the authorized capital) belong to the state, and legal entities affiliated with them may conclude a long-term contract on public procurement of goods, works, services necessary for implementation of the event with a deadline for completion in the next (subsequent) financial year (years), established in the development plan approved by the management body or the supreme body of these persons.

16. Excluded by the Law of the Republic of Kazakhstan dated 15.11.2021 № 72-VII (shall be enforced from 01.01.2022).

17. Is excluded by the Law of the Republic of Kazakhstan dated 26.12.2018 № 202-VI (shall be enforced from 01.01.2019).

18. In order to ensure the smooth operation of the customer, the latter shall have the right to extend for a period before summing up the public procurement by the method of tender or auction and entry into force of the public procurement contract, the validity of the public procurement contract of goods, works, services of daily or weekly needs according to the list approved by the authorized body.

At the same time, such public procurement shall be carried out in the volume not exceeding the volume of government procurement of such goods, works, services necessary to ensure the needs of the customer during the term of the public procurement, but not more than two months.

19. A public procurement contract must contain a clause on its termination at any stage if one of the following facts is revealed:

1) violation of the restrictions provided for in Article 6 of this Law;
2) provision of assistance by the organizer of public procurement to a potential supplier not provided for by this Law;

2-1) violations of the restrictions provided for in paragraph 23-1 of this article;

3) is excluded by the Law of the Republic of Kazakhstan dated 26.12.2018 № 202-VI (shall be enforced from 01.01.2019);

4) evasion from conclusion of the contract on public procurement by non-payment of security for execution of the contract on public procurement and (or) the amount in accordance with Article 26 of this Law.

20. The contract on public procurement shall contain conditions on full payment for the supply of goods, performance of works or rendering services within a period not exceeding thirty calendar days from the date of fulfillment of obligations under this contract.

21. The public procurement contract shall contain the conditions for payment of value added tax and excise duties in accordance with the requirements of the tax legislation of the Republic of Kazakhstan, the customs legislation of the Eurasian economic union and (or) the Republic of Kazakhstan.

22. The minimum term of delivery of goods, performance of works, rendering services under the contract on public procurement shall not be less than the term spent for delivery of goods, including its production (manufacture), delivery, performance of works, rendering services, but not less than fifteen calendar days.

23. The contract on public procurement shall be considered fulfilled subject to full implementation of the assumed obligations by the customer and supplier under the specified contract.

23-1. The maximum volume of works and services that may be transferred to subcontractors (co-executors) for the performance of works or rendering services shall not exceed, in the aggregate, one second of the work performed or services rendered.

At the same time, subcontractors (co-executors) are prohibited from transferring to other subcontractors (co-executors) the volume of work performed or the provision of services that are the subject of ongoing public procurement.

The provision of this paragraph does not apply to cases of concluding public procurement contracts provided for in subparagraph 36) of paragraph 3 of Article 39 of this Law.

24. In case of non-performance or improper performance of the obligations assumed by the supplier under the public procurement contract, the customer shall ensure the recovery of a penalty (fine, surcharge).

Penalty (fine, surcharge) shall be credited to the income of the relevant budget, state enterprise, legal entity, which fifty percent or more of the voting shares (stakes in the authorized capital) belong to the state, or legal entities affiliated with them.

25. The contract on public procurement may not be concluded when making a decision by the authorized body in accordance with subparagraph 6) of Article 16 of this Law, including during the appeal by the customer, the organizer of public procurement, the single organizer of public procurement of such decision of the authorized body.

26. Documents on execution of the contract on public procurement (the act of acceptance and transfer of goods, the act of works performed, services rendered, invoice) shall be issued in an electronic form.

Requirements for the issuance of documents on execution of the contract on public procurement in an electronic form through the web portal of public procurement does not apply to the cases provided for in subparagraphs 4), 9), 17), 18), 20), 21), 23), 26), 31), 32), 35), 40) and 41) of paragraph 3 of Article 39 and Article 50 of this Law, in the part that does not contradict the tax legislation of the Republic of Kazakhstan.

When executing the contract on public procurement, the name, quantity, quality, technical specification, cost, place and terms of delivery of goods (performance works, rendering services) must comply with the content of the contract on public procurement.

Article 43 as amended by the Laws of the Republic of Kazakhstan dated 08.04.2016 № 489-V (shall be enforced upon expiry of ten calendar days after its first official publication); dated 26.12.2017 № 124-VI (shall be enforced from 01.01.2018); dated 26.12.2018 № 202-VI (shall be enforced from 01.01.2019); № 262-VI as of 03.07.2019 (shall be enforced from 01.01.2020); dated 15.11.2021 № 72-VII (shall be enforced from 01.01.2022); dated 30.12.2022 № 177-VII (shall be enforced ten calendar days after the date of its first official publication).

Article 44. Evasion from the conclusion of the contract on public procurement

1. If a potential supplier recognized as the winner, within the terms established by this Law, has not submitted the signed contract on public procurement to the customer or, having concluded the contract on public procurement, has not made the security for execution of the contract on public procurement and (or) the amount in accordance with Article 26 of this Law (if any), such a potential supplier shall be recognized as evaded from the conclusion of the contract on public procurement.

2. In case of recognition of the potential supplier determined as the winner of public procurement, evaded from the conclusion of the contract on public procurement, the organizer of public procurement shall retain the security of the application for participation in the tender (auction).

Footnote. Article 44 is in the wording of the Law of the Republic of Kazakhstan dated 26.12.2018 № 202-VI (shall be enforced from 01.01.2019).

Article 45. Grounds for making changes to the draft of public procurement contract or a concluded public procurement contract

1. Making changes to the draft of the public procurement contract, subject to the invariability of quality and other conditions, which were the grounds for selection of the supplier, shall be allowed in compliance of the following interrelated conditions:

1) making changes to the draft of the public procurement contract initiated by one of the parties no later than five working days from the date of signing the protocol on the results of public procurement by the method of tender (auction);

2) making changes are allowed in terms of reducing the amount of the draft of the public procurement contract;

3) the decision on making changes to the part of reducing the amount of the draft of the public procurement contract was made by mutual agreement of the parties;

4) making changes to the draft of the public procurement contract in part of extending the term of execution of the contract on public procurement by five working days, sent to the potential supplier, who took the second place and if the potential supplier, determined as the winner, evaded to conclude the contract on public procurement.

It is not allowed to make changes to the draft of the public procurement contract without observing the conditions stipulated by this paragraph.

2. Making changes to the concluded contract on public procurement subject to the invariability of quality and other conditions that were the grounds for selection of the supplier shall be allowed:

1) by mutual consent of the parties in part of reducing the price of goods, works, services and, accordingly, the amount of the contract on public procurement;

2) in part of increasing the amount of the public procurement contract, if changes were made into the design and estimate documentation, which was examined in accordance with the legislation of the Republic of Kazakhstan, and a decision was taken to allocate additional money for the amount of such change in the manner determined by the legislation of the Republic of Kazakhstan;
